

DURA-FLOAT MEG4

Made in Germany

VERIFICATION ACC. TO OCIMF MEG4 BY DNV

high breaking load

good elongation

best spooling on winches

easy handling

produced and tested as per OCIMF MEG4 regulations

design: 6 strand with filling thread

type of lay: cross

density: 0,99 - floating

DURA-Float

has very good abrasion resistance

is maintenance-free

can be stowed while wet

is designed for use on automatic winches

is floating
