HYDRAULIC CRANES

SERVICES for HYDRAULIC CRANES

1

Hydraulic Hoses

We can supply all types of cranes with the required hydraulic hoses. In most cases we only need maker's drawing and part number. Additionally, we can send our specialised technician team on – board in order to identify the hoses.

2

Hydraulic Control Block

We can supply all types of cranes with the required Hydraulic Control Block. We only need maker's drawing and specifications.

3

Hydraulic Motors / Pumps / Solenoid Valves

We can supply all types of cranes with the required Hydraulic Motors / Pumps / Solenoid Valves / Spares. We only need detailed specifications.

4

Auto Greasing System [AGS]

We can supply all types of cranes with our pioneer Auto Greasing System, including inspection, assembly and installation.

5

On – Board Services

Our specialised technician team will assist you in the following fields:

- **Full Inspection of Hydraulic Cranes** followed by a detailed report of the crane's condition and required repair / replace actions.
- Installation / Inspection of Hydraulic hoses.
- Inspection / Repair of Hydraulic Control Blocks / Motors / Pumps / Solenoid Valves.
- Installation of Auto Greasing System [AGS]

To become
World Leader
at Crane's repair /
supplies.

vision

mission

To be your
main partner
for all your
crane's
needs!

03

Around the world, but close to you.
