	96004-1	HH Shower cover S
	96004-2	HH Shower cover M
	96004-3	HH Shower cover L

Avoid spraying water directly on the Velcro fastening.

Hot flushes?

CoolPad absorbs excess body heat and has a cooling effect.

CoolPad

Provides cooling effect for raised body temperature

CoolPad is placed on top of the mattress, under the sheet.

CoolPad is well suited for relieving discomfort due to raised body temperature during menopause, fever or other illnesses that cause the body temperature to rise.

How does CoolPad work?

CoolPad contains a patented phase change material approved by Økotex.

The material adapts to your skin's microclimate and acts as a buffer to prevent overheating and sweating through absorbing and storing energy. It also prevents you from becoming too cold.

The phase change occurs when the temperature exceeds or falls below the ambient skin temperature, thereby ensuring a constant and comfortable microclimate for your skin.
