Power and productivity
for a better world™

Power and productivity
for a better world™

About us

ABB Turbocharging is a member of the ABB Group (www.abb.com), a leader in power and automation technologies that enable utility and industry customers to improve their performance while lowering environmental impact. The ABB Group of companies operates in around 100 countries and employs about 150,000 people.

ABB Turbocharging (www.abb.com/turbocharging) is at the helm of the global industry in the manufacture and servicing of turbochargers for 500 kW to 80+ MW diesel and gas engines. Our leading-edge technology and innovation enables our customers to perform better and produce fewer emissions, even in the toughest terrains. Approximately 200,000 ABB turbochargers are in operation across the globe on ships, power stations, gen-sets, diesel locomotives and large, off-highway vehicles.

We're everywhere our customers need us to be, doing whatever they need us to do. We ensure that your investment performs optimally for its entire lifetime through unrivalled expertise and a wide service portfolio that guarantees Original Parts and Original Service anytime, anywhere.

About our Service Network

Our Service Network offers fastest, most reliable support available. We have highly qualified technicians and customer support staff in our network, and we are ready to help you 24/7 365 days a year at over 100 certified Service Stations in over 50 countries worldwide. Our spare parts stock availability is better than 98 %, even for the very oldest models. We know about every single one of our 200,000 turbochargers now in operation. And we can ship any spare part from our main warehouse in Baden, Switzerland, within 24 hours.

Benefits

Our proactive service offering ensures that you can be en route when you want, with minimum unplanned downtime, and you actually spend less than if you had a reactive service for maintenance, repair and overhaul.

Our support includes

- provisions to ensure minimum downtimes and no unplanned downtime,
- global proximity to engine users,
- Original Parts and Original Service guaranteed by certified ABB technicians,
- a wide service portfolio with spare parts exchange, upgrades and more.
