

**REMESA** was started in 1989, and is regarded by A. P. Moller Maersk like its own repair company inside the Algeciras Port. It was bought in 2010 by a private group that ensures the best services for REMESA clients. If you have any technical problems with your vessels in the Straits of Gibraltar, you can rely on real professionals to solve them for you. REMESA's philosophy: **TOTAL QUALITY IN THE JOB.**
