

# Liquid Containers

## Collapsible Jerry Can With Molded Handle

CFDPLAS As a Innovator and Pioneer of liquid Containers,Collapsible Jerry Cans,Water Containers in China.  
Streamline distribution Packaging Systems of liquid (like water) products.

Collapsible Jerry Cans to meet requirements of our time developed by the blow-molding technologies.

Collapsible Jerry Cans as the water container with tap and molded handle, for carrying and storing clean water.

As it has a rectangular cubic shape when filled, it occupies least possible space.

CFDPLAS molded handled Collapsible Jerry Cans has main market share in China which is proof of its quality.

CHNTAINER® molded Collapsible Jerry Cans is manufactured in a clean room.

### Material

Manufactured food grade low density polyethylene (LDPE) without toxic elements according to EN 1186-3-9 standard.

### Structure

Molded a side carrying handle with minimum 90mm length and 30mm height, no sharp edges and a removable cap for filling and discharge that is linked to the container by plastic string with diameter of minimum 1mm and approximately 120mm length.

Gland Spout size from 30-50mm.

### Operating Temperature

This product can withstand temperatures between -20°C to +50°C.

### Average Thickness

0.30mm and minimum corner thickness 0.25mm.

### Impact Resistance/Drop Test

The Collapsible Jerry Can is impact resistant on a hard surface when filled with maximum volume of water.

The complete drop test consists of 10 consecutive drops from a 2.50m height.

Test result is expressed as a product ranking according to the number of drops passed without damages or leakage. To be accepted, the collapsible Jerry can must resist to a minimum of 3 drops.

### Color

Translucent/Ultraviolet (UV) Stabilized.

### Marking/Logo

Customized to your requirements,like UNHCR,UNICEF,ICRC,IFRC...and so on.
