

CFDPLAS® Life Buoy Rescue Can

CFDPLAS® Brand's life buoy rescue can has used as a lifesaving or innovative buoy designed to be thrown to a person in the water to provide buoyancy, Comes with a connecting line.

A rescue buoy is a piece of lifesaving equipment used in water rescue.

This flotation device can help support the victim's and rescuer's weight to make a rescue easier.

It is an essential part of the equipment that must be carried by lifeguards.

It further can act as a mark of authority, identifying an individual as a lifeguard.

The rescue buoy is made of HDPE, and is buoyant enough to support the full weight of a rescuer and several victims. The rescue buoy is connect by a rope to a strap the rescuer wear.

The rescue buoy is a hollow plastic rescue flotation device.

The rescue buoy have six /three handles allowing victims to grab on.

The highest quality rescue can on the market.

Strong improved linear plastic.
