

## BUNKER SAMPLING CUBITAINER SYSTEMS

The sampling cubitainers for collecting representative fuel oil samples are designed in full compliance with the revised MARPOL 73/78 Annex VI. In regard with drawing primary fuel oil samples, CHNTAINER®'s cubitainers are attached directly to manual-valve drip sampler and secured by means of uniquely numbered seal strip (threaded through the fitted holes on drip sampler and on cubitainer's cap). This provides effective protection from tampering throughout the entire bunkering process.

### CUBITAINER 1L

Drip samplers use disposable cubitainers. These hold the oil sample before mixing and transfer to the sample bottles. They also keep out all external contamination.  
 Dimensions: 105 × 105 × 115mm

#### CFD-SBC-101

- ❖ Supplied in 1 litre/1QT size.
- ❖ Packs of 300, with screw cap, and pour spouts.
- ❖ Suitable for VPS sampler by using the convertor bobbin.
- ❖ Thread Pitch: P3/P4(3mm/4mm)

### CUBITAINER 4L

Drip samplers use disposable cubitainers. These hold the oil sample before mixing and transfer to the sample bottles. They also keep out all external contamination.  
 Dimensions: 165 × 165 × 165mm

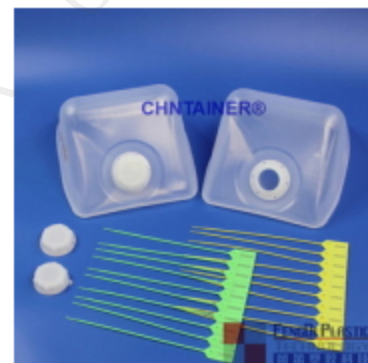

#### CFD-SBC-104

- ❖ Supplied in 4 litre /1 gallon size.
- ❖ Packs of 100, with screw cap.
- ❖ Suitable for VPS sampler by using the convertor bobbin.
- ❖ Thread Pitch: P3/P4(3mm/4mm)

### CUBITAINER 5L

Drip samplers use disposable cubitainers. These hold the oil sample before mixing and transfer to the sample bottles. They also keep out all external contamination.  
 Dimensions: 175 × 175 × 175mm

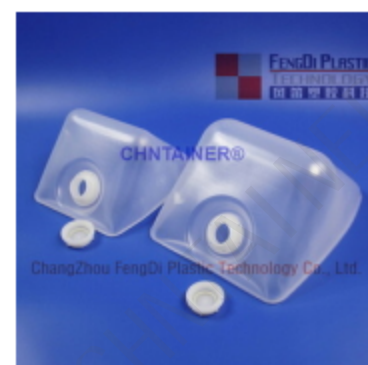

#### CFD-SBC-105

- ❖ Supplied in 5 litre /1.25 gallon size.
- ❖ Packs of 100, with screw cap.
- ❖ Thread Pitch: P3/P4(3mm/4mm).
- ❖ Suitable for VPS sampler by using the convertor bobbin.

### CUBITAINER 10L

Drip samplers use disposable cubitainers. These hold the oil sample before mixing and transfer to the sample bottles. They also keep out all external contamination.  
 Dimensions: 230 × 230 × 230mm

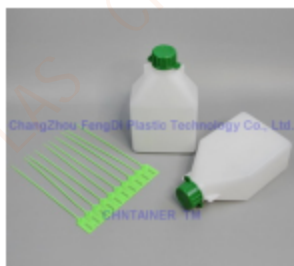

#### CFD-SBC-110

- ❖ Supplied in 10 litre /2.5 gallon size.
- ❖ Packs of 100, with screw cap.
- ❖ Thread Pitch: P3/P4(3mm/4mm).
- ❖ Suitable for VPS sampler by using the convertor bobbin.

## FUEL OIL SAMPLING BOTTLES

### 1000ML SAMPLE BOTTLES

1000ml heavy duty HDPE fuel oil sample bottles with 4 holes ear of screw caps.

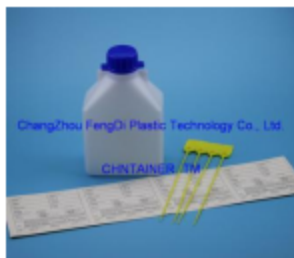

#### CFD-SBC-001

- ❖ Packed in cases of 100 bottles included of eared screw caps.
- ❖ Tested and approved for transportation of fuel oil samples by airfreight or courier service.

### 750ML SAMPLE BOTTLES

750ml HDPE fuel oil or lube oil sample bottles with 4 holes eared screw caps. A lighter and more economical option than the 1000ml version. Ideal for in-house quality control procedures or delivery of products not subjected to quantity scrutiny.

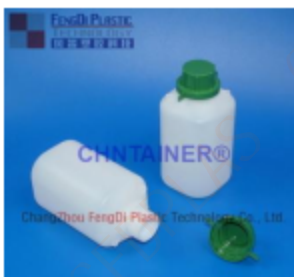

#### CFD-SBC-002

- ❖ Packed in cases of 100 bottles included of eared screw caps.
- ❖ Blue cap or Red cap, or colored screw cap

### 750ML SAMPLE BOTTLES

750ml Squared bottom HDPE fuel oil or lube oil sample bottles with tamper evident screw caps.

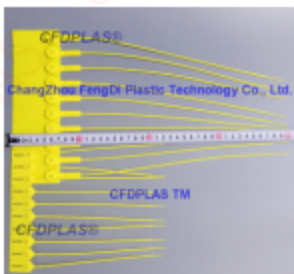

#### CFD-SBC-003

- ❖ Packed in cases of 100 bottles included of tamper evident screw cap.
- ❖ Blue cap or Red cap, or other colored screw cap

### NUMBERED PLASTIC SECURITY SEALS

Numbered tamper evident seals. With red/yellow/blue/green colors for customer made.

#### CFD-PSS-20220

- ❖ Supplied in laser printed series number and customer logo.
- ❖ Packed in case of 5000 seals, minimum order 20,000.

### SAMPLE BOTTLE LABELS

Self Adhesive, pre-printed labels for fuel or lube oil samples, supplied with custom artwork and text.

- ❖ Supplied on rolls or flat fold, minimum order 10,000 pcs.
- ❖ Water-proof, Oil resistant

### VACUUM SAMPLERS

For simple and effective lube oil / fuel sampling from machine sumps and storage tanks.

#### CFD-VSP-001

- ❖ Supplied in 38mm and 45mm neck
- ❖ Used for 100ml, 250ml, 500ml oil bottles
