FFE Services

Safety Equipment Production

Delmar safety is the solution for all your safety needs.

We service all types of safety equipment, including lifesaving appliances and fire-fighting equipment, with our well-trained staff and high-quality products.

Safety Equipment Supply

“Our prime target is to be the pole star
in the life saving industry.”

Delmar Safety provides a full range of safety equipment,
with competitive prices, through its local offices around
the world.

LSA Services

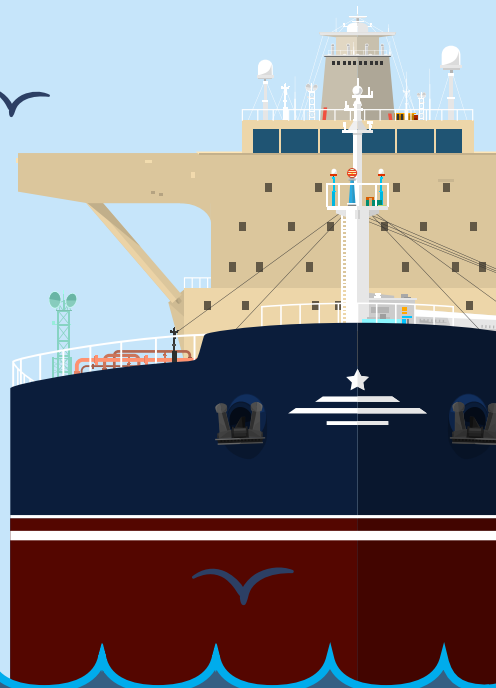

**“Safety performance and supervision
beyond standards.”**

Delmar Safety performs annual and five-yearly inspections and tests of lifeboats, rescue boats, life rafts, and davits, according to the latest IMO and SOLAS regulations. Our engineers perform static and dynamic load tests of any davit.

FFE Services

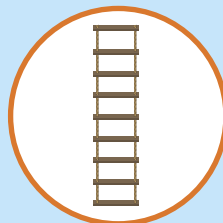

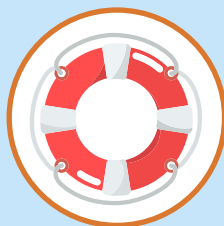

“Fighting fire with our technological expertise.”

Delmar Safety offers periodic tests and maintenance of portable fire extinguishers and fixed fire systems, including hydrostatic testing, refilling and recharging.

Safety Equipment Production

**“Innovative and high-quality
products at competitive prices.”**

Delmar Safety can supply all types of fire-fighting and safety equipment to any port. We produce our own equipment and export it globally. The safety of our clients' vessels is of the utmost importance. This is why our philosophy about safety equipment will always be: 'High-Quality, Strong, and Long-lasting'.
