- Sabroe and TMC refrigeration compressors spare parts

Comprehensive spare parts deliveries for long term cooperating customers.

We are working also, as a general technical supplier for shipowners. Significant part of our offer is composed after suggestion and according to requirements heard from our key customers. Our partners receive tailored offer answering their needs. With 35 years on maritime market, we have great experience and market knowledge, which we will gladly share with hope for building long term partnership.

Through years of operation on maritime market we worked with many different ship equipment. We are ready to aid fleets with spare parts suitable for:

- **Diesel Engine's spare parts** of various brands basing on Client's requisitions and origin preferences
- **Engine room auxiliary equipment** for any type of pumps, separator, compressors etc.
- **Electric and automation equipment** for any ship subsystem

The company is managed under ISO 9001:2015
under TÜV Thüringen e.V
