

YOUR SHIP SPARES PARTNER

30 years of building partnership with clients all over the World, brings us to the point where we can, proudly and with full confidence, announce ourselves as competent, reliable partner for supply chain of every shipowner.

**30 YEARS
OF PROVEN QUALITY**

STr Sp. z o.o.

Is a family owned company brought to life in year 1988. Until now, the company went through many changes and great development. Since the early beginnings the company was present on the marine market with strong focus on supplying foreign fleets. As the company grew, the new opportunities got to our attention including: ship repairs and overhauls, metal machining production and real estate investment including hotel owned by company from our group.

In this brochure we will focus on our activity on marine market, as a technical supplier, which is a significant part of company's heritage and genesis.

SHIP SPARE PARTS AND EQUIPMENT

STr is founded on development of many years knowledge, experience and prosperous activity. The company divides the business between two main activities:

First one is production of standardised or client tailored metal elements, using modern park of CNC machining equipment. We provide these products to manufacturers of equipment and machinery from all over the World, including marine industry.

Second part of the company is a Marine Department, offering wide range of spare parts and equipment for ship-owners, shipyards and servicing companies. The department grew from providing technical support for some Polish build vessels operating in Russia and Russian vessels coming to Polish ports. Today we provide our Clients with wide range of equipment of most know makers of marine market. Still the main asset of STr's Marine Department is the knowledge of engines built on Sulzer license and our partnership in this matter with H.CEGIELSKI-POZNAŃ S.A.

WHAT WE DO

Main share of our offer are spare parts for diesel engines and engine room's auxiliary equipment. However through many years of work on the market, we extended our offer to satisfy diversified technical needs of our clients' fleets. We work with spare parts for almost all ship's subsystems. Our clients are provided with wide range of goods, logistical support and technical consultancy. This brings us to be, in some range, an extension of ship-owners' technical departments.

WHAT WE ARE PROUD OF

In 2019 our strong presence on Russian marine market continues. The portfolio of our clients grows and the search for new opportunities is constant.

We became well known and trusted supplier for many ship-owners operating fishing, transport, research and oil fleets.

Effective competition with important players on the marine spare parts market, brings savings and service improvement to our customers.

Through cooperation with partners in Europe and Russia we developed effective operations in conditions of high requirements of import and customs procedures.

Constant contact with our clients in the course of project implementation and our experience assures flexibility and satisfactory performance in each project.

Our geographical presence was mainly focused on former USSR countries however share of our sales in Europe and other regions is constantly growing.

H.CEGIELSKI-POZNAŃ S.A. PARTNERHSIP

STr Sp z o. o. continues the partnership with H.CEGIELSKI-POZNAŃ S.A. as an official representative for Russian market, as our common business grows constantly.

Being a company which derives from polish marine industry, we value and honour its main players. This is why we partner with main manufacturer of diesel engines, under Sulzer license, installed on ships built in Poland. For clients, who care for top quality and value the knowledge and assurance of original maker, we propose genuine spare parts of H.CEGIELSKI-POZNAŃ S.A., as the best solution for their diesel engines.

As family owned company, STr has a natural easy of understanding that successful personal life of its employees and company's prosperity are not to be separated at any stage of their development. Integrating the whole team of the company under such statement is not actually a difficult task. What it takes is awareness of people's needs and common responsibility for each other in achieving common goals. The company is engaged in organisation of student practices and takes part in many conferences, we are also part of networking project, the Westpomeranian Maritime Cluster. All above activities aim to develop and share our knowledge for future benefit. Although it is not always the shortest route, we go to achieve our goals leaving as small footprint of our presence as it is only possible. The company invest in energy saving solutions and has modern infrastructure. We believe that innovation is not only the way for company commercial success but also the guarantee of better tomorrow.

OUR VALUES

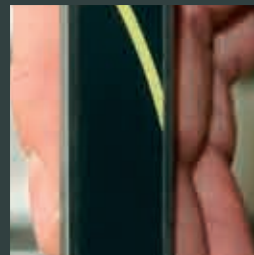

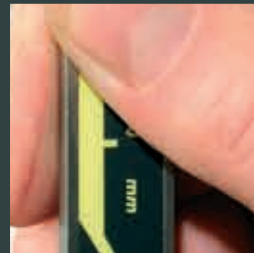

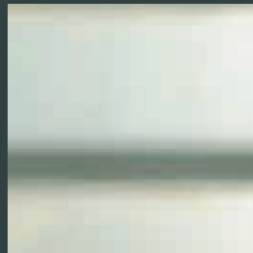

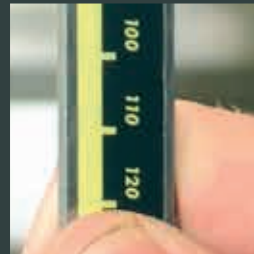

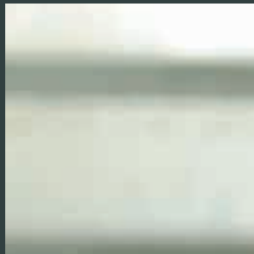

SPORTSMAN SPIRT AMONG THE CREW: Company sponsored sailing yacht Venandi under sails during regatta.

WELL MANAGED QUALITY

With aim to constant improvement of our operations, STr upgraded its Quality Management System to ISO 9001:2015, granted and audited by TUV Thüringen as certifying body. The way we work for our Clients is in constant supervision and improvement process. Procedures of Marine Department are clear and tailored just to fit the needs of marine market needs. All to satisfy the growing needs of our customers.

WHAT DO WE BRING TO YOUR BUSINESS?

Certainty of goods quality.

Our spare parts offer relies on original parts or their replacements of proven quality. Our partners are always informed whether a given part is original and where it comes from. As we aim at long term relationship with our partners, we do not compromise on the quality of the parts we supply.

Lower service costs.

Many fleet owners prefer purchasing high-quality replacements. Good technical parameters of our parts mean that the equipment doesn't cause any problems during use. Long term cooperation with many manufacturers enables us also to offer original parts at good prices.

Support of a team of experienced professionals.

Our team consists of people with many years of experience in the industry. We have taken part in many interesting projects, including repairs, services, design works and modernizations. This means that we can really understand the needs of our partners. We are glad to share our experience.

A solid approach of a company with more than 30 years of tradition.

As a company with family roots and based on family values, we want to work in such a way that our partners can really rely upon us. We are always serious about our commitments and the needs of our customers are of utmost significance to us.
