THE Marine Electrical Experts

ABOUT US ELECTRIC

US Electric is your turnkey Marine Electrical Services leader.

We pride ourselves on providing all electrical and automation services as a true one-stop shop.

Integrity is at the core of everything we do—when we say we'll meet your deadline and budget on a project, we deliver.

Our extensive experience and knowledge make us confident we can solve any electrical challenge you throw our way.

OUR SOLUTIONS

■ LARGE MARINE VESSELS

We quickly handle everything, from troubleshooting and maintenance to complex installations. Our team is on-site within 24 hours worldwide

■ SHIPYARDS AND BOAT-BUILDERS

Design and engineering of new builds, re-builds, re-fits, and regular maintenance

■ CUSTOM-BUILT SWITCHBOARDS

We do it all in-house: designing, custom-building and installing our own control panels

■ PURCHASING & SUPPLY OF PARTS

We source our parts and materials globally, supplying our customers with the right product at the right price

VISION

Be the best Marine Electrical Services and Engineering company in North America.

MISSION

To provide the highest quality of service, on time and within budget, for all of our customers, 100% of the time.
