

## WHO WE ARE

AD Service srl was born from the long experience of its founders in spare parts, mechanical seals, overhaul of rotating machinery, service and construction supervision. Speed, quality and service are the strengths to meet the needs of customers both in the naval and industrial sectors. The administrative, commercial and technical staff of AD Service, is a young and versatile team, highly qualified, trained and oriented to trouble shooting, and is able to operate anywhere in the world. AD Service solves your problems with effective solutions with a high quality / price ratio.

## NEW PUMPS

We can supply the following pumps in all sizes: IN-LINE, Horizontal, Self-priming, Screw-type, Hollow Disk, Diaphragm, Mono Multistage, Submerged, Vacuum pump, Dosing units.

The pumps can be supplied in special materials upon customer request.

Pompa a disco cavo

Pompa a viti

Vacuum pump

Pompa dosatrice

Pompa inline

## SUPPLY OF SPARE PARTS AND ASSISTANCE

AD Service is able to supply and reconstruct all the original and non-original spare parts related to pumps and compressors, both for rotary and alternative machines.

## MECHANICAL SEALS

AD Service specializes in supplying mechanical seals of all kinds and brands. Furthermore, making use of innovative equipment and twenty years of experience, it is able to completely overhaul the most complex seals for which the cost of the new seal is considerably higher than the reconditioning.

## Reconditioning
