LIMANI Supply Group, S.L

About us

Limani Supply Group

Limani Supply Group is your business partner in ship supply. The company is headquartered in Madrid and an European specialist in full-service ship supply.

We have been operating in ship supply chain and logistics in Spain for more than 20 years.

In 2020 Limani has established a strategic warehouse and logistic department in the port of Rotterdam, The Netherlands. Due to this movement we extended our reach to 115 ports in Europe.

Our trucks depart daily from both locations, giving us a unique addition for our customers in terms of their 3rd party spares and the benefits of supplying each port in different countries along the way.

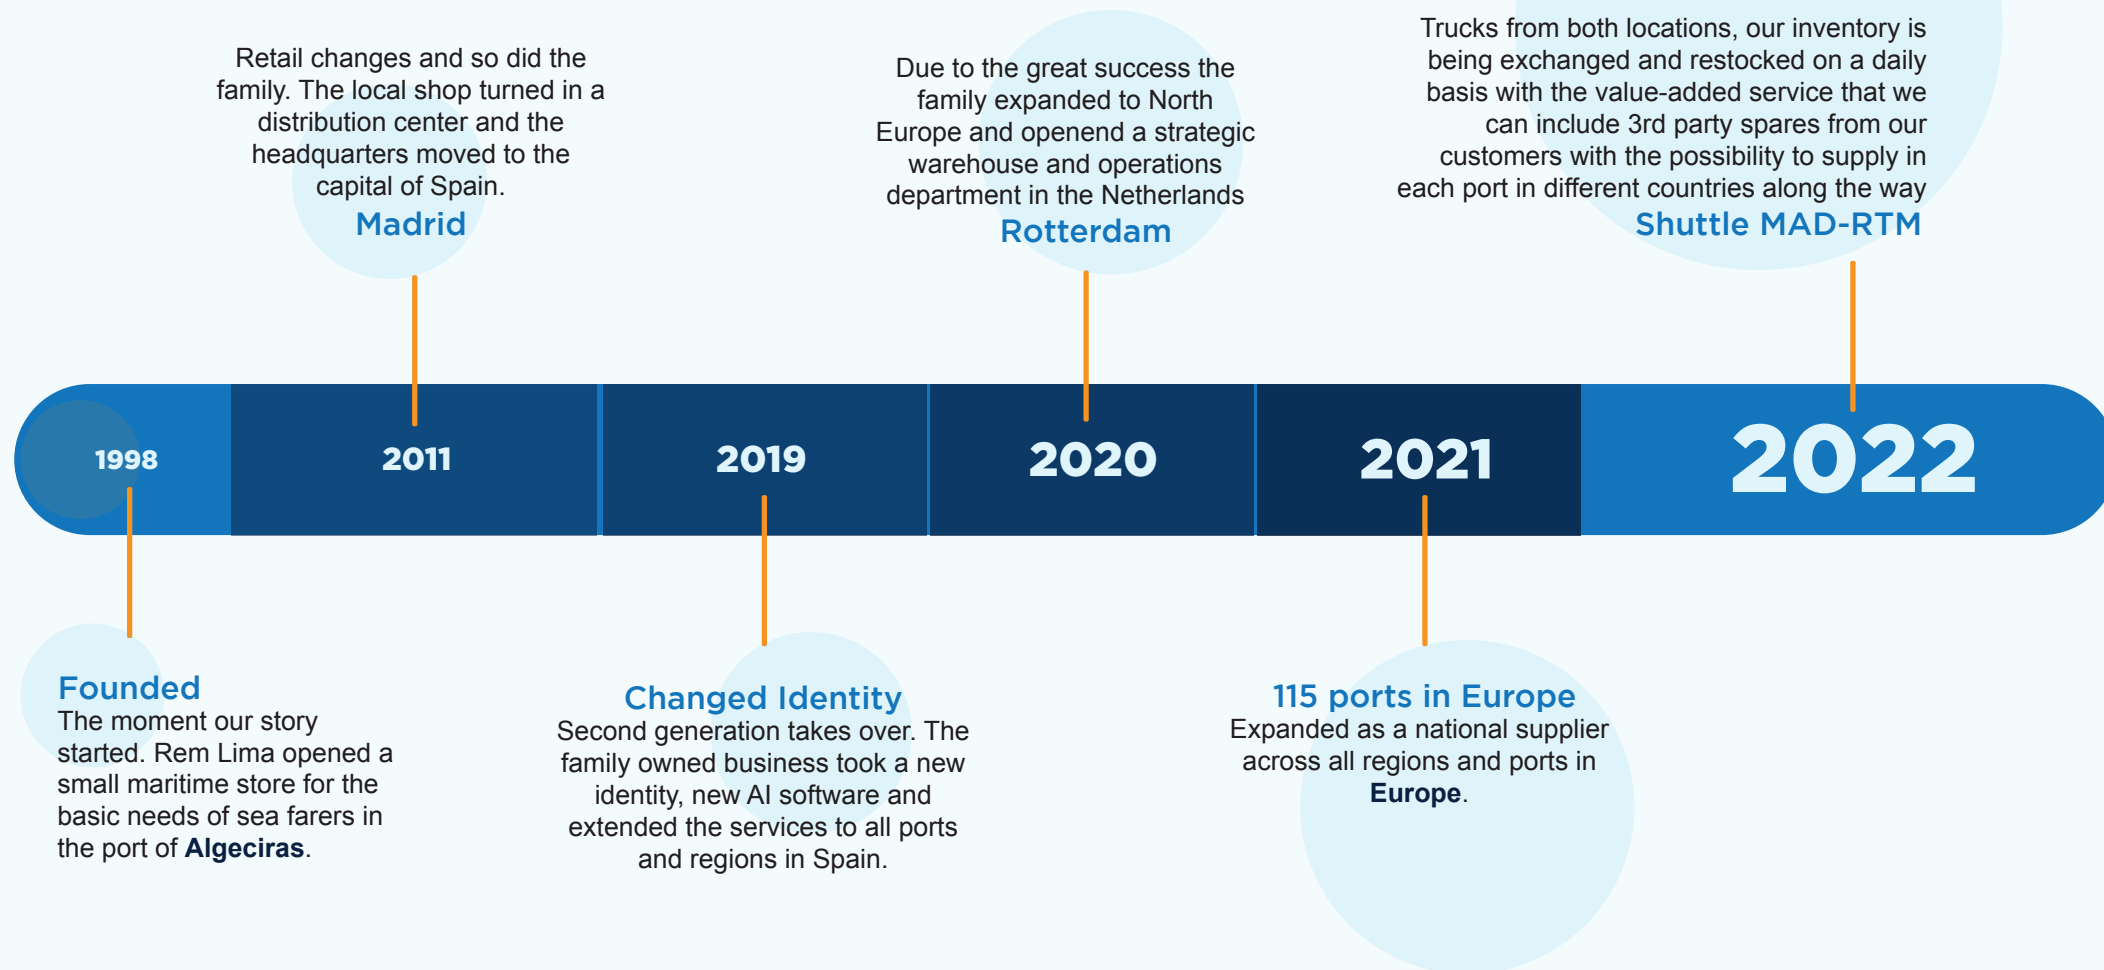

Limani has become a leader in delivering extraordinary order handling experiences by providing reimagined logistics, quality products and technical knowhow to the shipping industry.

For all needs and demanded products, Limani is the ideal business partner that supply your ship as fast as possible due to its own assortment of products at both locations, advanced logistics software and local know-how around all the major ports of Europe.

In collaboration with the food community in Madrid, Limani Supply Group only supplies fresh provisions and frozen products from the mainland of Spain. Our meat comes directly from the butcher himself and our fish is freshly caught every day!

Our fruit is purchased on the delivery date itself and comes directly from Europe's biggest fruit market in Madrid.

We do not import our products, we don't inject meat and don't keep unnecessary frozen product.

Limani stands for quality!

We invite you to come and taste our products in the collaboration gastro restaurant where our Michelin star chef will prepare food produced with love.

Our exclusive partners:

UTILIZING TRANSPORT THE FULLEST

Combination of consumables, provisions and spares to control the annual budget from owners/managers.

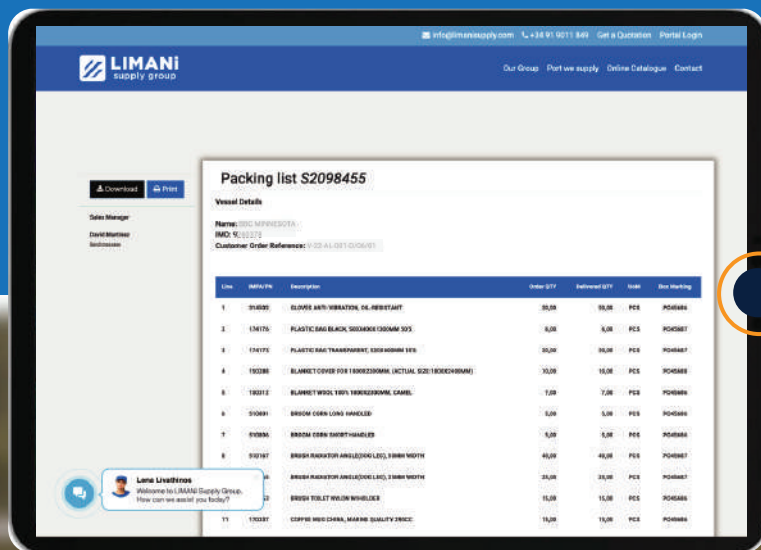

Efficiency is the key-word in our line of business and therefore, Limani Supply Group has recently established a value-added service in the Netherlands for temporarily storage, consolidation and distribution of spare parts, mail packages and other third party supplies. (warehouse locations Rotterdam & Amsterdam)

In case your vessel is heading towards any Spanish or Portuguese port we transferring the spare parts to our Madrid warehouse for further distribution.

For this service you will only pay a price per pallet and this includes handling, QR-coding, customs and storage.

Beneficial:

- Non-European spares from overseas stored in customs warehouse without paying duties & taxes
- Collection and importing of ship spares via air or sea from your overseas suppliers and or manufacturers via Limani means
- Utilizing outgoing transport methods to the fullest to control logistics Budgets
- In house customs system, expertise and department. (export declaration, transit documents and clearances)
- Order/shipment monitoring, controlling and live updates through Our AI Software
- 24/7 accessibility for emergency demands from vessel.
- Global export via various modalities air, ocean and courier
