**FAST MARINE
SERVICES**

An aerial night photograph of a shipyard. A large ship is under construction, illuminated by bright work lights. The ship's hull is visible, showing various compartments and structural elements. Several cranes and other industrial equipment are positioned around the ship, also lit up. The scene is dark, with the primary light sources being the artificial work lights.

Feasible - Accurate - Solution - Timely

WHO WE ARE

Founder
Erinç KORKMAZ

FAST MARINE SERVICES is an engineering / service company, founded by Mr. Erinç KORKMAZ who is Naval Architect and Marine Engineer and who has 19 years experience in Maritime Industry. - Centrifugal casting of white metal bearings
- Manufacturing of new liners and bushes in stainless steel and bronze
- Dismantling and assembling of propeller equipment
- Laser Cladding
- Manufacturing new shafts

DESIGN TEAM

FABRICATION WORKSHOP

MECHANICAL WORKSHOP

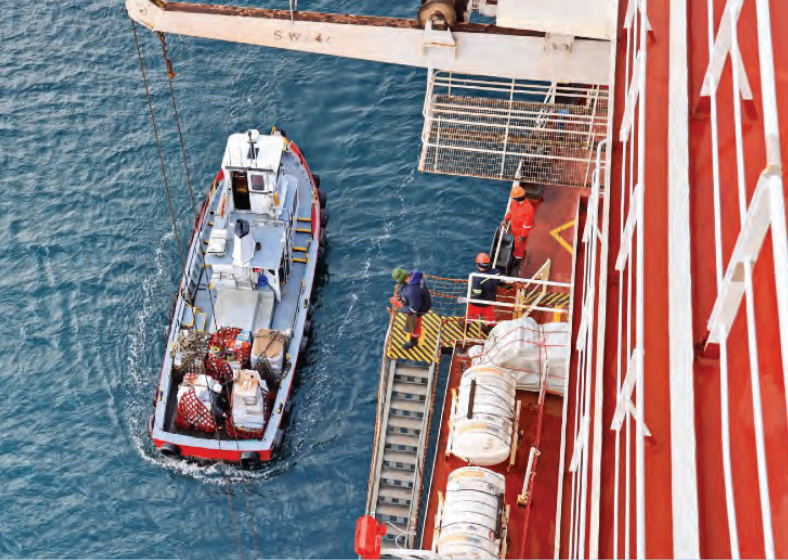

A close-up, low-angle shot of the underside of a large ship's hull. The hull is painted in a two-tone scheme: a dark teal or blue on top and a reddish-brown on the bottom. The red section shows signs of wear and rust. A large, curved metal structure, likely part of the propeller assembly, is visible. Below the hull, a red metal platform or structure is partially submerged in the water. The water is a deep blue with some white foam from the ship's wake. The sky is a pale, overcast blue.

A large, three-bladed propeller is being lifted by a red crane in a shipyard. The propeller is made of a light-colored metal, possibly brass or bronze, and has a complex, curved design. It is suspended by thick black cables. The background shows a shipyard with various metal structures, pipes, and a worker in a white uniform and hard hat. The overall scene is industrial and brightly lit.
