HYUNDAI MARINE ELEVATORS

Occupying the largest share in the world marine elevators market, Hyundai Elevator provides tailored solutions through its world-class technology and experience.

Our solutions are ideal for harsh marine environments and come with full legal compliance. In addition, we have a wide range of world-class technologies in compliance with the requirements from world major Classifications including ABS, DNVGL, LR, BV, RS, KR, RINA and CCS.

As it is more important for everything to operate perfectly when out at sea, we make it a rule to provide products that ensure the efficient and safe transportation of both people and cargo onboard as a reliable partner.

We provide total transportation solutions, from elevators to escalators, for cruise ships. We offer a wide range of products for different purposes and ship types.

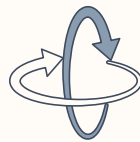

HYUNDAI MARINE ELEVATORS

NO. 1

- Ranked 1st in market share in the Korean elevator market for 13 consecutive years. (As of the end of December, 19)
- Ranked 1st in market share in the global marine elevator market.

We have 76% market share in Korean shipyards, the largest ship market, and 65% in Chinese shipyards. (As of the end of July, 20)

ALL IN ONE

It is thoroughly managed with an all-in-one system that is responsible for design, purchase, manufacturing and quality control in Korea. In particular, it maintains optimal performance of equipment even in a marine environment that has undergone strict self-quality certification tests of major safety parts directly connected to customer safety.

MINIMIZE MAINTENANCE COSTS

Hyundai Elevator Malaysia offers comprehensive maintenance plans that ensure regular calibration and adjustments for your equipment. With our program, you can count on improved uptime and a preventive approach to avoid malfunctions.

Hyundai Elevator Malaysia understands the concerns of fleet owners who want complete assurance that their marine lifts will operate flawlessly. Our answer to this is our reliable service contracts. Through regular servicing, we strive to deliver several key benefits to your operations, including lower running costs, increased uptime, elevated safety levels, and reduced hassles.

DESIGN FOR BEST PERFORMANCE

Hyundai elevator's all components comply with relevant Rules and Regulations, and are designed and manufactured to withstand the harsh environment condition at sea.

BENEFITS OF OUR MAINTENANCE PLANS

Regular Calibration and Adjustments

With our maintenance plans, our skilled technicians regularly calibrate and adjust your marine lifts, ensuring they operate at peak efficiency and performance levels.

Improved Uptime

By proactively addressing potential issues during maintenance, we aim to boost the uptime of your marine lifts. Minimized downtime translates to increased productivity for your fleet.

Cost Savings

Our service contracts effectively reduce running costs over time. By preventing major breakdowns and costly repairs through regular maintenance, you can save significantly on maintenance expenses.

Enhanced Safety

Safety is our priority. Our thorough inspections and implementation of safety measures guarantee that your marine lifts meet the highest safety standards, safeguarding both your equipment and personnel.

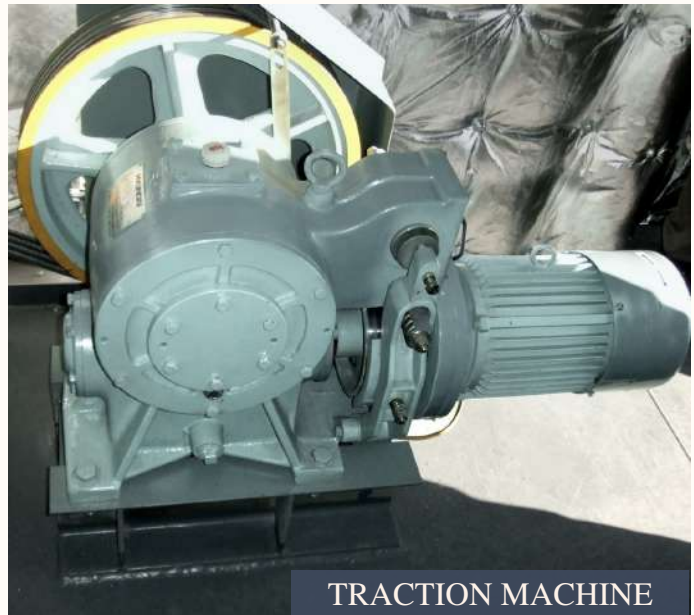

Hassle-Free Ownership

Let us handle the maintenance hassles. Our dedicated team of technicians takes care of all servicing requirements, allowing you to focus on your core business operations.

THOROUGH INSPECTION AT THE START OF THE SERVICE CONTRACT

As part of our commitment to safety and effectiveness, our skilled technicians conduct a meticulous inspection at the beginning of the service contract. This inspection encompasses the following key aspects

- **General Functioning Check:** We thoroughly assess the overall functioning of your marine lifts, ensuring smooth and reliable performance.
- **Component Functionality Check:** Each component of the marine lifts undergoes rigorous inspection to ensure optimal functionality.
- **Worn-Out Part Estimation:** We identify any worn-out parts and estimate when they need replacement, ensuring the longevity and efficiency of your marine lifts.

Hyundai Elevator Malaysia's service contracts offer the perfect solution for fleet owners seeking assurance that their marine lifts will perform as intended. With our maintenance plans, you can enjoy cost savings, improved uptime, enhanced safety, and a hassle-free ownership experience.
