

Goltens Service & Sales

Goltens has fully equipped workshop facilities for overhauling, repairing and testing most types of Governors

Various Goltens locations across the globe are Authorized Independent Service Facilities for Woodward Governors or Heinzmann / Regulateurs Europa. These stations provide our customers with a full range of products and services for all of their governor related needs.

Goltens' workshop facilities are fully equipped with the necessary specialized tools, test benches and spare parts for overhauling, repairing and testing a comprehensive range of governors and actuators. We carry out service and overhaul on governors for Main Engines, Auxiliary Engines, Cargo Turbines and Auxiliary turbines as well as providing a wide range of governors from our own stock.

Goltens' specialists are well trained with years of experience carrying out overhauls and repairs. All overhauls follow strict, quality control procedures starting from disassembly through cleaning, parts renewal, testing and calibration to original specifications.

In emergent situations, our service engineers are available around the clock anywhere you need us. To reduce equipment downtime, Goltens offers repairs on an exchange basis for many types of governors. Goltens also offers technical consulting for new installations, maintenance and troubleshooting.
