

Total Care

a solution by:

Poseidon
MARINE SUPPLIES · WORLDWIDE FRS

Dräger

Total Care Solution is a complete, cost-effective, 3 or 6 year program for your company's needs in gas detection devices and relevant spare parts.

It is addressed to any type of fleet that under international and national laws is obliged to comply with the relevant Safety Measures for personal protection.

Certified by: **TÜV HELLAS**
Member of TÜV NORD Group

HOW IT WORKS

Each client is considered an individual project for us, therefore each proposal is a tailor-made solution. For its implementation the following steps are followed:

- > Your Total Care proposal is designed from the beginning to respond perfectly to your needs in gas detection devices.
- > We supply you with all the necessary equipment and accessories as well as the relevant manuals for your daily bump test check and calibration.
- > Based on the configuration of your fleet and type of vessels, a sufficient number of spare parts and devices is always available.
- > We schedule the training sessions for your office personnel and crew members regarding proper usage, calibration and maintenance of devices.
- > Finally, you get an appointed person from our office who is responsible of your account on a 24/7 basis and access to our online portal for the monitoring of your certificates.

ADVANTAGES

UP TO 30% CUT DOWN ON EXPENSES

Fixed annual fee per vessel, hence no hidden or surprising costs.

CUT DOWN ON OPERATION TIME

With necessary training and support and with one point of contact for your supply of gas detectors and their accessories your operation time and cost is minimized.

YOUR FLEET IS EQUIPPED WITH BRAND NEW DRÄGER DEVICES

Dräger is a German manufacturer and the leader in personal safety equipment since 1889.

24/7 TECHNICAL SUPPORT

Vessels run around the world on a 24 hours basis, 365 days a year. That means a non stop organization, where the equipment remains the same while people change. This is why, we offer a 24/7 Technical Assistance to all clients/vessels through our dedicated cell hot line and e-mail address.

MONITORING AND CONTROL

You have continuous monitoring control of all your devices and notification alerts for expiration dates via our online portal.
