• SOUTH AFRICAN SHIP SUPPLY

Express Shipchangers was Established in 1994. We are an ISO 9001 : 2000 Certified Company, based in Durban, South Africa. Our Aim is Total Customer Satisfaction, and we have built a reputation of being a Quality Supplier, Offering Competitive Prices without compromising on Quality, for a comprehensive range of provisions.

We are Committed to providing an unequalled " 24 / 7 / 365 " Service To All Vessels for Provisions, Bonded and Technical Stores. This Commitment to meeting Our Customers needs are attended to by Our Dedicated Employees working through a Quality Management System. Our Technical Department, has an unrivalled reputation of obtaining All Customers requirements, coupled with their superb expertise and knowledge, which has over the years assisted vessels in obtaining the correct items and spare parts at the most Competitive Prices.

• SERVICE AND PHILOSOPHY

• ON TIME - WHEREVER YOU ARE

Our Company is situated in Bayhead, Durban, which is ideal for Quick Supply, due to close proximity to the Harbour.

The location enables us to source products globally and to store the goods customs - and tax-free.

Our Large warehouse space allows us to keep stock of tons of refrigerated, frozen and non-temperature controlled food, permitting very short lead times for delivery by truck, in containers or by airfreight.

Our quality management system ensures a consistently high standard of all consignments leaving our warehouse. We understand our role as more than simply being a supplier of products. We see ourselves as our customer's partner, to secure the right product at the most competitive price, handling logistics and transportation. Our experienced customs department relieves our clients of the ever-increasing quantities of paperwork needed for customs clearance.

Our HACCP-System is certified on an annual basis and under permanent external control.

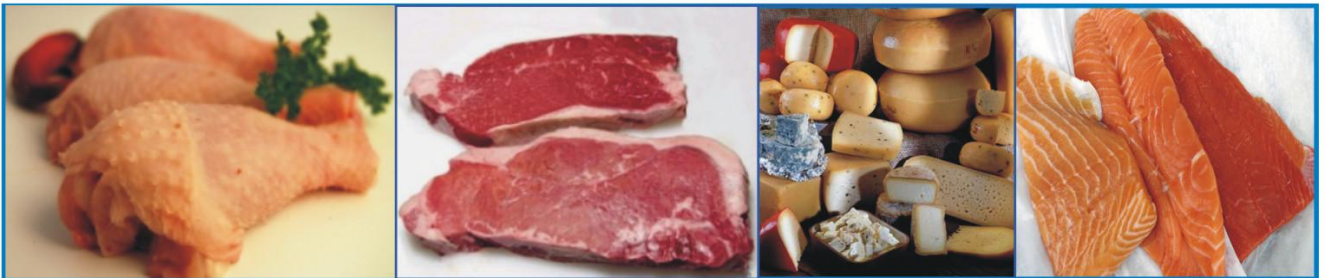

• CUSTOMERS

The large range of products offered by our company is an ideal mix for our clients, who often operate or travel in remote areas with limited infrastructure. They can rely on our valuable experience and our highly motivated workforce. We combine expertise in global sourcing with our strong purchasing power to offer food solutions at very competitive prices. The structure of our company and the large storage capacity ensure the availability of hundreds of different products and short lead times.

Our Customers : Ship Owners / Charters / Catering Companies / Cruise Liners / Ship Managers
