

AED Debitech Lifeline AUTO

Seafarma offers the AED Defibtech Lifeline AUTO. The one-button defibrillator.

The Lifeline AUTO is a fully automatic defibrillator designed to analyze heart rhythm and automatically deliver a shock – without intervention – if needed.

Saving a life could not be easier: turn the unit on and the AUTO will do the rest. If the unit recognizes that a shock is needed, it will automatically shock the patient.

Compact, portable and lightweight Defibtech AEDs have won numerous awards for design and innovation.

The Lifeline AUTO uses biphasic technology, a clinically proven waveform and algorithm to deliver shocks and save lives. This is one of the most widely used impedance compensated waveforms which has extensive clinical experience and success in thousands of defibrillators around the world. Evaluation in hundreds of publications has demonstrated this technology to be the safest and most effective when it comes to saving lives.

Technical Specifications:

Type	Fully Automatic external defibrillator
Model	DDU-120A, DDU-120E
Energy	Adult: 150 Joules Child: 50 Joules
Power	15V, 2800 mAh
Standby Life	5 years
Capacity	300 shocks or 16 hours continuous operation
Size	8.5 x 11.8 x 2.7 Inches or 22 x 30 x 7 cm
Weight	Less than 4.2 lbs (1.9 kg)
