BELOW, Where dust  
is a problem, vacuum  
guards are available for  
all units

ABOVE, Model AUR-GW1

**AURAND**

Aurand's patented cutting teeth bite right through tough accumulations on ANY hard surface. On decks, walls, or ship hulls, in tanks, pipelines or boilers, results like sandblasting are yours from a small, lightweight tool. Aurand's unique Centrif-Clean® action quickly peels off build-up. Adjustable depth settings protect the underlying surface and prevent overloading, stalling and excessive cutter wear. Easy-to-use Aurand tools save many man-hours on any cleaning, painting, or refinishing job.

- Electric tools available in 115 and 230 volt models with AC/DC, 50/60hz. universal motors. 15 feet of three-conductor cable included.
- Pneumatic models feature rotary type air motors, free from toggles, pistons or reciprocating parts to eliminate vibration. Operating Range; 70-100 P.S.I./42 C.F.M.
- Models M5-E1, M5-E2 and MP6-E are furnished with a 48-inch detachable aluminum handle allowing one man to operate the tool with speed and ease over large flat areas. This handle is available as an option on Models M5-1, M5-2, & MP6.
- AUR Models are available in Gas & Electric Models (115/230v). Vacuum guards are available for all units.

**There is an AURAND tool  
right for every job!**
