Line Remover Floor Cleaners

For Large Flat Areas and for Removing Painted Lines

The AURAND floor cleaners feature a 4 3/4 -inch rotating head and heavy-duty gasoline or electric motor. Designed with sturdy 42-inch handles and large rubber tires for easy maneuverability and stand-up operation. It's the perfect tool for cleaning any hard accumulation from concrete floors and walkways or for stripping painted lines from blacktop or concrete pavement. Also useful for removing the eggshell surface from new concrete to insure proper paint adhesion.

Length: 48"

Wire brushes available for all M Series tools

CALIFORNIA PROPOSITION 65 WARNING:

Engine exhaust from this product contains chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.

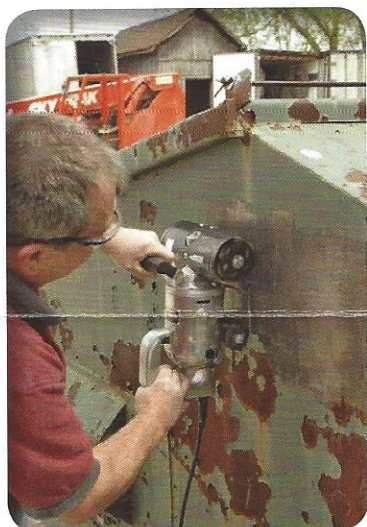

Dust Collector Available for Aurand Tools.

You asked for it, and we delivered!

On jobs where dust is a problem, the "TOUGH GUY" has solutions! Vacuum retro-fit kits are available for all existing AURAND Tools. Also, new AURAND tools are available with vacuum attachments which substantially reduce the dust generated by the tool's cleaning action. In addition, extended handles are available for "M" model tools which allow the operator to stand while using these machines. These vacuum units are of the same Aurand quality you have come to expect and carry the same warranty.

This is just a sampling of the jobs that the people
in the industry are doing with Aurand Tools.

Surface Prep

Deck Scaling

Coating Paint Removal

Where can you get
SO MUCH from such
a small investment?

ALL AURAND TOOLS FEATURE:

ADJUSTABLE DEPTH SHOE that the operator sets to limit the impact of the cutters. This not only protects the surface being cleaned but also insures uniform cleaning action and prevents excessive wear on the cutters.

CAST ALUMINUM HOUSINGS that offer the user a tough, durable tool that is still lightweight and easy to handle.

BEST POSSIBLE GEAR DESIGN with a hardened and ground worm driving a bronze worm wheel for maximum life and effectiveness.

SEPARATE handle, safety guard, cutter bundles, motor housing, and front head assembly to make repair or replacement easier and less expensive.
