

KET MARINE

SEPARATORS SINCE 1985

SEPARATING THE BEST FROM THE REST!

Company profile

Excellent quality & service since 1985

KET Marine specializes entirely in supplying spare parts and repair services for GEA Westfalia and Alfa Laval separators.

Since the founding of the company, KET Marine has strived to achieve an honorable track record when it comes to providing our customers with outstanding quality and reliable service solutions.

Our stock program consists of approximately 30.000 different spare parts, brought to you by a staff of dedicated people that are determined to provide you with everything you need to keep your separators up and running!

Activities

Supplying high quality spares from stock!

Over the past few decades, KET Marine has developed an extensive range of OEM and genuine quality spare parts that are suitable for GEA Westfalia and Alfa Laval separators.

The scope of the program varies from mechanical components, hydraulics, pumps, gaskets, control units and tools, through an extensive range of applicable components and gaskets for heat exchangers from various manufacturers.

The extensive range of separator equipment KET offers:

GEA Westfalia

OTA, OTB, OTC, OSA, OSB, OSC, OSD, OSE and OSF series.

Alfa Laval

M-, F-, W-, P-, S- type series.

Separators

Complete reconditioning

In order to provide you with a professional and reliable solution, we offer reconditioned separators from stock which are overhauled completely according to the original manufacturer standards.

After the reconditioning process, all separators will endure an extensive test run with liquids, rebalancing of the bowl and the approval of our highly skilled and dedicated service engineers.

At the heart of the machine a driving centrifugal force is working to provide your engines with pure and clean lube or fuel oil.

To ensure your separators will always stay up and running, we offer an extensive range of exchange bowls for GEA Westfalia and Alfa Laval which are balanced, hydro-tested and ready for dispatch at any time!

All bowls come with a balancing and warranty certificate.

Bowls

Extensive bowl program

Control units

Brand new reconditioned exchangeable

To complete the range of spare parts, we also provide a variety of exchangeable control units to help you manage your GEA Westfalia or Alfa Laval separator system electronically.

The range of control units we provide varies from the newest I/O to D10 and C7 to PLC 100 control units through IPC, MARST and EPC control units.

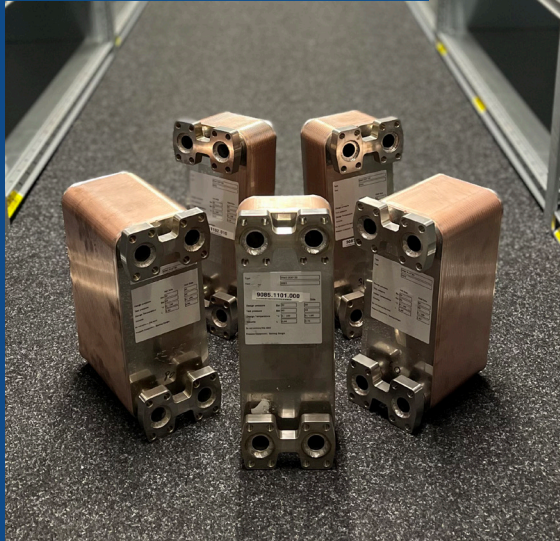

By managing this complete program in-house as well, we are able to provide a solution that is 100% identical to what the makers have to offer, including service and assistance!

Besides the program we offer for GEA Westfalia and Alfa Laval separators, KET Marine can also provide you with complete servicing and spare part solutions for your heat exchanger modules.

KET Marine offers a broad scope of spares and gaskets applicable for SWEP, Kelvion, Tranter and APV heat exchanger modules from stock.
