SURFACE PREPARATION

TRELAWNY MANUFACTURE A WIDE RANGE OF EQUIPMENT TO KEEP YOUR VESSEL'S APPEARANCE AT ITS BEST.

Regularly maintaining your most valuable asset(s) increases your appeal to potential clients while reducing future costs from unnecessary work. Trelawny's solution...a range of comprehensive tool and equipment packages tailored to your needs and vessel type. Supported by our global network, re-stocking in port is quick and easy.

From Ro-Ro to tankers, keeping a Trelawny surface preparation package on-board stops the corrosion of your finances.

BULK CARRIERS

HATCHES & PASSAGEWAY SURFACES

5ft long reach scaler

TVS TFP200T
200mm deck scaler
Use with KV30 vacuum

Angle grinder

SF1 heavy duty
scaler - single head

VL303 or VL203 needle
scaler

READY TO GO! ALL SURFACES

The Trelawny Bulk Carrier package provides vessels with a package for undertaking large areas on the hatch covers and passageways as well as spot repairs. The package has a strong focus on creating a dust free environment with the option to include a vacuum, which can be attached directly to the TFP200 deck scaler to reduce clear up time after descaling work has been done.

Low vibration options available

Tool & Vacuum System options available

PRODUCT BUNDLE 2

CONTAINER VESSELS

SPECIALIST PRODUCTS

5ft long reach scaler

Angle grinder

Trident Neptune

VL303 or VL203 needle scaler

SF1 heavy duty scaler - single head

READY TO GO! SURFACE FINISH

Trelawny have prepared a specialist "Container Vessel" package with the specific focus on products designed for small area maintenance. This package allows for maximum flexibility when removing corrosion or old coatings prior to re-coating the surface area.

These simple to use, low maintenance tools can be deployed to any area of the vessel with minimal safety and application training.

Use the versatile Trelawny hand tools for multiple applications which are perfect for hard to access areas, tanks and overhead work. Air consumption is very low with requirements as low as 4 / 10 CFM. The long life tools and consumables give high productivity in most environments with minimal maintenance.

Low vibration options available

Tool & Vacuum System options available

RO-RO VESSELS

DECKS & PASSENGER SEATING AREAS

TFP200T
200mm deck
scaler
Use with KV30
vacuum

SF1 heavy duty
scaler - single head

VL303 or VL203 needle
scaler

5ft long reach scaler

READY TO GO! ALL AREAS

The Trelawny Ro-Ro package provides vessels with suitable tools for descaling large areas of the deck as well as the right tools to quickly descale walls and railings located in the outside passenger seating area. In addition, the Long Reach can be used inside to take up floor coverings if the indoor passenger seating area needs renovating.

Low vibration options available

Tool & Vacuum System

PRODUCT BUNDLE 4

TANKER VESSELS

SPECIALIST PRODUCTS

SF11 pneumatic deck hammer

SF1 heavy duty scaler - single head

VL303 or VL203 ATEX needle scaler

READY TO GO! SAFE

The Trelawny Tanker package provides your vessels with non-spark and ATEX certified tools to ensure the highest standards of health and safety are met while working in potentially hazardous areas.

ADDITIONAL PRODUCTS

SCALEFORCE 11 PNEUMATIC DECK HAMMER

A lightweight machine for fast descaling of decks perfectly suited to very bumpy surfaces.

High productivity capable of descaling 30m²/hour. Lightweight at just 36kg making it easy to manoeuvre. Available with beryllium copper heads.

Low vibration options available

ATEX

Tool & Vacuum System

PNEUMATIC ANGLE GRINDER

Recommended use of the wire brush head for removing stubborn rust and feathering coatings.

Ideal for smooth detail finishing.

Available in 2 sizes, Trelawny pneumatic angle grinders provide a high level of performance for a variety of grinding and cutting applications. When purchased with the brush the tool is ideal for feathering surface rust whilst the disc removes stubborn material deposits.

Low vibration options available

TRIDENT NEPTUNE DECK DESCALER

Ideal portable tool for deck descaling.

Surface preparation on a wide area where a floor tool cannot reach. Available in electric or pneumatic versions each provided with an array of tools suitable to every marine task,

ALTERNATIVE CUTTERS FOR EVERY TFP200 TASK

The promotion products are supplied with TCT cutters suitable for heavy descaling tasks. Star & Beam Cutters are appropriate for lighter surface removal and finishing.
