

Total Water Management

RWO  VEOLIA

Water and wastewater treatment systems for ships, ports and offshore installations

WATER TECHNOLOGIES

- > Over 40 years of experience in Total Water Management
- > Market leader in oily water separation
- > Quality and performance made in Germany

Extensive experience

Veolia Water Technologies with its brand RWO is one of the leading suppliers for water and wastewater treatment systems onboard ships and for offshore installations.

For more than 40 years RWO's experts have developed, designed, manufactured and serviced innovative and cost-efficient technologies. This applies to both onboard ships or offshore installations, for new builds as well as retrofitting.

Our key competence

The RWO brand stands for decades of experience in the construction and service, in all field of maritime water treatment, inclusive of:

- > Oil Water Separation
- > Wastewater Treatment
- > Process & Drinking Water Treatment
- > Ballast Water Treatment

Unsurpassed backing

RWO is the global marine technology brand of Veolia Water Technologies Deutschland GmbH, subsidiary of Veolia, a leading design and build company and a specialized provider of technological solutions in water treatment. With 9,500 employees worldwide Veolia Water Technologies posted global revenue of € 2,3 billion in 2015.

Your key benefits

- > High quality in every aspect
- > Worldwide network and support
- > Comprehensive experience in water treatment engineering
- > Get your water management solution from the market leader in OWS

Worldwide Sales & Service Network

Still close by

RWO's network of more than 40 qualified sales and service center throughout the world ensure customer benefits due the short communication links to short response times. Thereby, our wide ranging expertise and our products, as well as services has made us a reliable partner in the maritime industry.

Spare parts

RWO offers original spare parts for all types of water treatment applications.

Please contact us for further information: de-vwst.spares.rwo@veolia.com

Service

Depending on our customers' demands, we offer an individually designed range of services. With our large service network, and our competence in process engineering, we have optimized our service offer our service offer.

The service range includes:

- > Full Service including preventive, maintenance, repairs, spare parts supply, replacement of filter material, troubleshooting
- > Optimization and updating of the control and measuring technology
- > Support helpline: standby with agreed response times
- > Training of the operating staff

Product portfolio

Bilge Economizer

Oil/Water Separation

- > Complying with 5 ppm standard
- > IMO Resolution MEPC 107 (49)
- > **Additional equipment:** Splitting and Filtration Unit or the BilgeEconomiser
- > World leading supplier

Sewage Treatment

- > Suitable to treat black, grey and/or galley water
- > Compatible with all vacuum systems
- > Acc. to MEPC.227(64)
- > **Additional equipment:** Grease Trap
- > Optional: Membrane Sewage Treatment

ACCuRem

Aircon

Process-water

5

AC Copper Removal Unit

- > Reuse of AC drain condensate for technical purposes, e.g. as laundry supply water
- > Based on a special combination of filtration and ion exchange

5

Potable water

SRO-COM

3

Sea-water

Fresh & Process Water Treatment

- > Seawater Reverse Osmosis desalination
- > Fresh water supply on board
- > Energy recovery
- > Class certificates available
- > Advanced seawater filtration
- > Optional UV Disinfection, Hydrophor, Calorifier, Chlorine control, De-Chlorination unit, Mineraliser and Carbon filter

CleanBallast

4

Sea-water

Ballast Water Treatment

Two-stage treatment:

1. Filtration technology
 2. Electrochemical disinfection
- > Certified by: IMO, BSH Germany, RMRS, GL, AMS-USCG
 - > Advanced mechanical separation (DiskFilter) and EctoSys® disinfection system
