Marine Care is a world wide marine chemical blender and supplier in all the mayor ports in the world oceans. From its establishment in 1995 as a tank cleaning specialist providing the shipping industry with innovative

quality cleaning chemicals and tank cleaning advice. Marine Care has developed herself in the past decade to global supplier of marine chemicals for any use onboard. Now having offices and agencies in all points of compass, supplying in 150 ports and 75 countries.

Marine Care's product is similar to Unitor, Drew. It is a professional marine chemical cleaning and the tankcleaning is well-known in the field leader marine (China) and Marine Care has started cooperating since 2005. Both parties advantage repairs with each other.

Nowadays, Marine Care has owned process factory and warehouse in Shanghai. It all imported products have already paid Customs duties, saving a great deal of transportation time and cost for the ship owner. The products can not only be provided in Shanghai,

but also be delivered in each main port of China.

Leader marine (China) is the sole agent in China, has been concentrating on the expansion work of the product. Now, in addition to in Shanghai, all have stock in each main port in China. And, its high quality, convenient transporting, perfect product category and overall technique support also got more and more ship owners to approve.

We will be in the light of high-quality service, creative principle and team cooperation spirit to wish you that provide profession in the world.

The sole agent in China
