40+ YEARS OF EXPERIENCE

PK OEM Parts started as a broad supplier to the shipping industry in 1981. In the years after we entered the market offering a unique alternative to the manufacturer's sole sourcing position.

Our OEM quality parts suitable for Wärtsilä engines gave many customers the alternative of sourcing their engine spare parts at PK OEM Parts without compromising on quality.

MEET THE TEAM

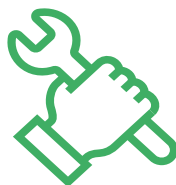

The people at PK OEM Parts are trained, dedicated specialists with a clear customer focus. Active for 40 years, we have many experience working with our product and within many industries throughout the world. Our team has the right technical knowledge and is always able to assist you regarding all your questions.

SPECIALIZED IN OEM SPARE PARTS

PK OEM Parts is specialized in supplying your 4-stroke engines with high quality OEM spare parts, sourced from leading manufacturers in Europe. The unique combination of great availability from stock, technically-trained customer service, high quality OEM parts suitable for your Wärtsilä engine and a fair price, offers you great value for money.

As specialist in supplying spare parts for only a select range of engine types, we have built complete delivery programs of spare parts suitable for each engine type from our scope of supply. This wide range of OEM spare parts is stored in our 2.500m² warehouse allowing us to quickly ship out your required parts.

MAINTENANCE

For the engine's maintenance you often work with a tight schedule. After placing your purchase order, your shipping instructions will be strictly followed to ensure your parts are delivered at your requested date of arrival.

OVERHAUL

When overhauling your engine, numerous engine components need replacement. Let us make you a suitable offer, or ask our sales team for technical advice and our options for complete spare parts kits.

URGENT REPAIR

If your engine urgently needs specific parts to be replaced, we are at your service. With great availability from stock and from our strategic location, your parts can quickly be dispatched from our warehouse to any destination in the world.

OEM QUALITY

The spare parts supplied to you are of high OEM quality, meaning our spare parts are sourced from European manufacturers who specialize in the production of specific parts that are supplied to renowned engine builders worldwide.

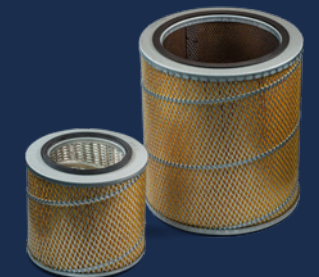

As a result, all parts are made and developed by leading specialists with long histories of proven excellence. At PK OEM Parts we guarantee that the quality of all spare parts is equivalent to that of the original and fully interchangeable.

WORLDWIDE PLAYER

Active since 1981, PK OEM Parts has built and still grows a far-reaching network of customers within the power- and shipping industries throughout 160 countries worldwide. To assist our customers in the best way possible, a large worldwide network is available for local sales advice and technical assistance.

Together with our worldwide partners, our customer service team is able to support you in many languages. Our sales managers travel around the world meeting customers face-to-face as one of our company's strong beliefs is that our businesses requires personal contact.
