

MIDDLE EAST FUJI L.L.C

Quality Reliability Integrity

Pioneer in Middle East
in Marine Engineering Marine Supplies
& Industrial Solutions

MEF's Vision is

TO BE THE BEST SERVICE PROVIDER

in the Region, as measured by Customer Satisfaction,
Quality of Service,
Financial Profitability, Growth
and high standards of Health & Safety

Middle East Fuji LLC was established with a mandate to offer unique and bespoke ship store supply services to all vessels calling at UAE ports. Since our inception in 1993, we have significantly evolved and diversified to emerge as the region's leading marine and industrial services provider.

Our vast portfolio of equipment and spare parts represents some of the world's most prominent brands renowned for their reliability. By forging strategic alliances with acclaimed machinery and equipment manufacturers across Japan, Europe, and Asia, we are able to offer timely and exceptional after-sales services, immensely increasing our market share in the marine engineering industry.

Our growing list of satisfied customers and a strong track record of customer and employee retention has propelled our business further enabling us to scale new heights and create new industry benchmarks.

INTEGRATED MANAGEMENT POLICY

Middle East Fuji Group has developed the Group's Integrated Management Policy together with appropriate systems, procedures and framework which ensures operational excellence within the defined scope of its Integrated Management System,

- We will ensure that our products and services fully meet the requirements of our customers every time. The goal of the group is to achieve a high level of customer satisfaction at all times;
- We are committed to promote and maintain high level of health and the safety standards for our employees, our customers and public at large, while executing our operations. Our expectation is that no one gets hurt and nothing gets harmed
- We are committed to continual improvement, prevention of pollution, prevention of injury and ill health and compliance with applicable legal and other requirements
- Which is documented, implemented and maintained and communicated to all persons working for or on behalf of the Group.
- We promote the concept of sustainable development, uniting protection of the natural and human environment with economic well being;
- We are committed to maintain product quality & hygiene in our warehousing and supply operations, as per ISO 22000 requirements, applicable statutory and regulatory requirements and as per the food safety requirements of the customers;
- We provides the framework for setting and reviewing our integrated management objectives and targets;

FACILITIES

Visionary leadership and investment in the right resources have led to the creation of modern up-to-date facilities at our key locations. These facilities house workshops and warehouses that deliver safe, sustainable and effective solutions and services both onshore and offshore.

Marine Supply

Global network, global solutions

One of our key strengths is our strong global service network which is always connected to the major hubs and worldwide ports. One of the benefits of this solid and reliable network is major cost reduction efficiency without compromising quality.

Logistic services & ship spare management

Harnessing our collective expertise and large network, we offer door-to-deck logistics services for ship spares. We can provide shipping companies, ship builders and ship owners round-the-clock comprehensive logistic delivery and forwarding services.

Supply for new builds

Our strategic partnerships with major manufacturers and extensive database in association with reliable suppliers enable us to swiftly source tools & consumables for vessels and offshore plants throughout the Middle East and Africa.

Dry dock support

We offer dry dock support as and when needed on a regular basis. Our specialized engineers can be quickly deployed, on a project basis or a one-off basis across the region to facilitate major structural repairs, refurbishment or replacements.

Supporting offshore industry in the region

Our proficient team of engineers, welders and fabricators can easily be stationed offshore at your fixed or mobile platforms to undertake routine or unplanned maintenance and servicing. With impressive rapid response times and valid offshore certification, we can deliver precise and safe solutions that support your operations.

Single window contact services

An added bonus of our services is single window procurement services available to the trading vessels of our customers around the globe. Leveraging our robust Fuji worldwide network is a cost-effective measure for our clients as we can acquire and deliver crucial stores supplies onboard at a reasonable cost.

Chandlery and provisions supplies

We offer full line chandlery and quality supply cold chain which are acknowledged by our customers, i.e. cruise lines, merchant vessels, armed forces and offshore units. We are ISO 22000:2005 and HACCP certified.

Transport

We also provide prompt and reliable transport services as we own a large fleet of refrigerated vehicles, trucks, and temperature-controlled insulated containers. Our Operations Department is well trained to observe safe handling and delivery procedures.

Marine Engineering

After Sales Service

Middle East Fuji provides a spectrum of engineering ingenuity and solutions to any requirements of ocean-going vessels

Our factory-trained engineers are always available to assist with any vessel requirements in the UAE or across the GCC. We endeavor to provide quick resolutions by observing all approved procedures and using genuine spares.

Repairs & Supervision

We are the authorized sales and service agent for most eminent Japanese machinery manufacturers in the industry. We can quickly source and deliver the requisite spare parts for repair and maintenance across the region. From the start to the conclusion of the repair work, our manufacturer-trained engineers supervise all major and minor repairs to extend the longevity of equipment.

Inspection

We provide annual / five-year inspection of life boat, hook release and launching devices as per MSC/CIRC 1206. We are authorised inspectors of all major Japanese and Chinese life boat and davit manufacturers.

Automation

We are also readily available at short notice to extend efficient specialized engineering services on retrofitting of ship automation system - especially gauges, controllers, controlling valves, monitoring systems in gas product or crude carriers. We also provide troubleshooting and rectification services for automatic unloading systems.

Emergency Spare Parts Procurement

Our durable connections and strategic alliances with manufacturers and shipyards across the world assure prompt procurement and delivery of specialized machinery and specific equipment to any region. At every phase, orders are checked to ensure they match purchase specifications and that supply times are not compromised and we seamlessly manage the entire process to our clients' satisfaction.

Industrial Solutions

Our scope of services and expertise goes beyond catering to marine and offshore requirements. With an objective to enhance the industrial world and expand our potential, we have taken initiatives to utilize resources in other fields.

We currently procure spares, specialist tools, and deploy our engineers to other industries such as amend: such as construction, oil & gas and power plants.oil & gas and power plants. We offer safe and stable products that are extremely reliable and carefully sourced.

This includes a range of unique tools, and manufacturing machinery and consumables specific to industrial plants, shipyards, oil rigs, etc.

Our collaboration with Fuji Trading (Japan) is significant in making these strides to supply equipment and machinery to complementary industries. We also provide various services like Shut Down Maintenance, General Maintenance and Repair Services for industrial equipment and machineries.

Plant Machinery Services & Supplies

Middle East Fuji offers an extensive range of products, equipment, spares and support services primarily related to the Maintenance, Repair and Operations (MRO) for various industries including oil & gas, petrochemicals, water, power, fertilizer, steel and minerals, cement plants, EPC, chemicals, and processing plants.

Our Plant Machinery scope includes the supply of equipment and spares for various types of mechanical, electrical, instrumentation and automation equipment from manufacturers from Japan, Korea, China, Far East, Europe and USA.

We also provide engineering services like overhauling, general repair, commissioning and installation equipment by our authorized engineers. Additionally, we provide in-house services related to freight forwarding such as receiving, clearing, storage, and delivery of equipment and spare parts to any location in the Middle East. We aim to set the bar high and serve as industry influencers to keep in tandem with the fast-paced growth and demands of the regional industrial landscape.

Hotel Supplies

We have garnered a reputation for supplying major five star hotel chains with a wide array of seasonal fresh produce and frozen foodstuff. We supply fresh fruits and vegetables, fresh and frozen meat products, specific Japanese, Thai and Oriental food & beverages, and various exotic dry items. We are the first authorised importer of Kobe beef in UAE and to top it up, we source on Halal Kobe beef.

As a trusted partner, our procurement division is diligent to only source food and grocery items that are the most fresh and of outstanding quality. By sourcing directly from local and international producers, we eliminate hefty margins and also cater to specific customer requests. Following food hygiene regulations and food safety procedures is a paramount objective as is maintaining a high caliber of quick and reliable service delivery.
