Service & Repair

Lavastica has experienced engineers to repair, service and commission your equipment. We arrange qualified service engineers to come on board of your vessels, platforms and industrial plants anywhere in the world. Lavastica will take care of the required spare parts for these services. Besides offering services on board, we offer repair, calibration and reconditioning of your equipment in our workshop. Using our services will extend the lifetime of your installations.

Our quality management system is ISO9001:2015 certified by Lloyd's Register
