

FROM THE WORLD'S #1: HEAVY DUTY GALLEY & LAUNDRY APPLIANCES

Some say we are narrow-minded: we focus only on premium marine catering and laundry solutions. That's why you can always count on our in-depth knowledge in two of the most important areas on board: galley and laundry.

Our history dates back to the late 1960s and more than 12,000 deliveries of catering and laundry systems on board merchant vessels, workboats and offshore structures.

Loipart's vast range of foodservice equipment meets all possible current international maritime standards and regulations, but we also offer appliances built for more specific requests considering odd voltages and frequencies.

HARSH WORKING CONDITIONS.

Our solutions are based on knowledge of the working conditions on board far away from home during long periods. Food is therefore crucial for setting the mood. It requires quality galleys with high demands of smart handling, compact installation and reliability.

There is one other excellent way to maintain your vessel and crew in mint condition – reliable cleaning and drying of all heavily soiled fabrics and garments on board.

GLOBAL & LOCAL.

Shipping is a truly global business, and so are we. But you have to act locally. We offer an extensive global network for support on a local basis. Our subsidiaries are strategically based in Fort Lauderdale, USA and Singapore. Our headquarters is in Sweden, Scandinavia.

MARINE CATERING SYSTEMS MADE EASY.

It takes more than a broad range of equipment to be a trusted supplier and meet all your requirements:

- Contemporary design works, correct installation and proper maintenance.
- Technical support including world-wide supply of spare parts.
- Spare parts availability: 4,000 items for immediate delivery.

Modern design tools and a large amount of experience are what it takes to create layouts for galleys, pantries, bars and laundry areas on board all kinds of vessels.

LOIPART IN A SEASHELL

- More than 800 customers in 62 countries.
- Deliveries to more than 12,000 ships.
- 50 years of experience.
- Privately owned.
- The highest AAA credit rating.
- Offices in Sweden, USA and Singapore.
- Agents and representatives globally.
- More than 2,000 finished products in 18 categories for galleys and laundries.

GALLEY AND LAUNDRY SOLUTIONS PURPOSE-BUILT FOR MARINE USE.

We offer the maritime world's most comprehensive range of equipment to be found. More than 2,000 products in 18 product categories, covering everything from dishwashers and turntables to tumble dryers and flatwork ironers, are available from Loipart – and those are just our standard range of products.

Choose equipment that meet the highest and most stringent quality according to all international marine standards and regulations.

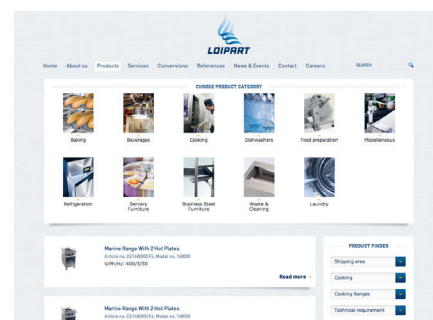

ALL MARINE SEGMENTS AND STANDARDS.

We pride ourselves with unrivalled competence and experience from all marine segments and standards. In order for us to be the most preferred partner for shipyards, owners, operators and naval architects, we set our focus on supplying premium products on a global scale at competitive prices and with the best service operations. Regardless where your vessel is – you can always rely on Loipart.

To put it simple: there are indeed easy ways out if you are running complex catering operations – be a Loipartner!

PROFESSIONAL MARINE STANDARD.

All pumps for dishwashers should be 3ph and drain pumps are always included as standard. RC filters, to prevent magnetic disturbances on navigation equipment are always included for major appliances. These are what we consider to be true marine standard.

Our website offers user-friendly, quick and easy product search. All products are organised for different kinds of vessel types. After all, features for galley equipment on board a passenger ferry are not the same as for a cargo ship.

Loipart offers services and after sales support on a global basis. You can rest assured that you will always receive technical advice and spare parts for your equipment.

OUR PROMISE: YOU'LL FIND JUST THE RIGHT PRODUCT.

- Foodservice equipment for galleys, pantries and mess rooms:
Combi and convection ovens, cookers and ranges in all dimensions and features, mixing and dough kneading, dishwashers, thawing units, refrigerated cabinets and servery equipment, static and dynamic preparation, and much more.
