MARINE

Dekytspotter covers supply on all harbors throughout the French Atlantic Coast

QUALITY

- Freshness guaranteed: collected each day from the local F&V wholesale market.
- Full respect of the cold chain and HACCP food safety control.
- Strict selection and monitoring of our suppliers.
- Supply chain management.
- Provisions adapted to crew nationalities.

PROXIMITY

- Our warehouses are located within reach of main harbors.
- Flexibility in adjusting to your constraints and terminal instructions.
- Delivery of your order the day that suits you best, including weekend.

REACTIVITY

- We respond within a few hours and always in less than 24 hours.
- We deliver on time, in close contact with your agent and local terminal authorities.

EXPERTISE

- Our English-speaking and dedicated teams perfectly manage all sales, logistic and administrative specifications required by our core-business.
- Full certified 'AEO' since 2011, we control the management of all customs procedures.

ADAPTABILITY

- We know how to anticipate stopover schedules and adapt to weather conditions to supply your ships in the best conditions, without interfering with their loading or unloading activities / commercial operations.
- We can receive your goods in transit: collect at major airports, store in our bonded warehouses, clear and prepare custom's documents, before delivering ship 'spares' directly on board.

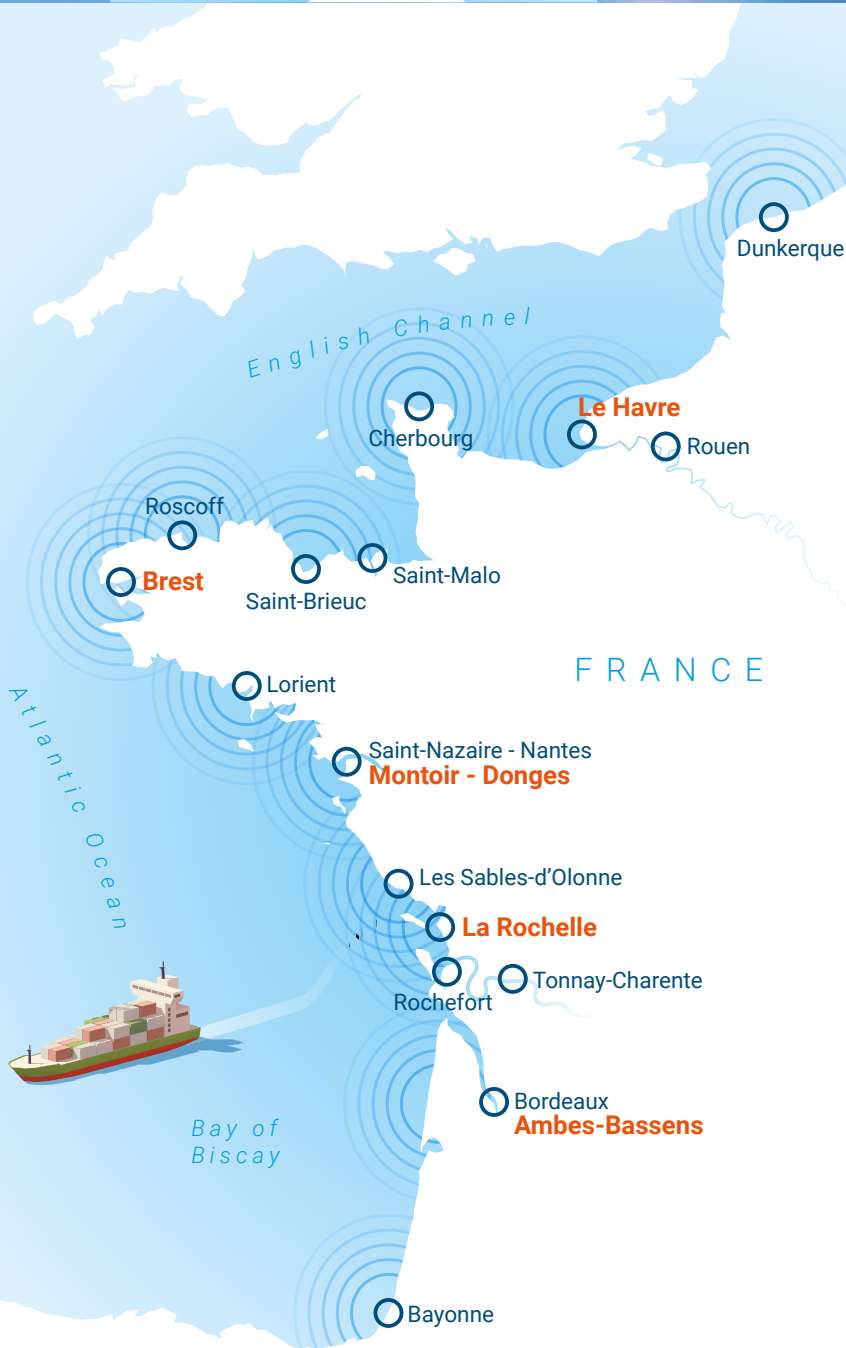

We act to reduce our impact on the environment.

We have been constantly thinking and acting on reducing our impact on the environment for many years.

- We give priority to short food circuits.
- We always optimize our supply chain, storage and distribution to limit our carbon footprint impact.
- Our fleet of bi-temperature vehicles is conformed to EU standards: periodic roadworthiness, food traceability and cold chain controls, CO2 limited target.
- We are used to collecting pallets and plastics on every port.
