

**BERGAN**  
MARINE SYSTEMS

# COMPANY OVERVIEW

# COMPANY PROFILE

**Since 1975** Bergan Marine Systems has specialized in the design, engineering, and fabrication of marine equipment tailored to meet the unique requirements of our customers. Our specialization encompasses tank gauging, alarm systems, monitoring solutions, fuel management, and automation systems.

Our components are versatile, capable of functioning independently or seamlessly integrating into broader vessel automation systems. Everything we offer is fabricated or assembled at our state-of-the-art facility in Pensacola, Florida, USA.

We are committed to ensuring the longevity and optimal performance of our equipment. Our service team provides round-the-clock lifetime service and parts support not only for our products, but also for equipment from various other manufacturers.
