

B COOL IS A CERTIFIED DANFOSS PARTNER

B COOL is a certified Danfoss Industrial Refrigeration Partner in global marine. To achieve certification in industrial refrigeration solutions, B COOL have participated in Danfoss' extensive training program in refrigerants, system types, and components.

Danfoss is a renowned brand, famous for its extensive range of strong and reliable equipment used in cooling and heating systems on board ships worldwide. B COOL can support you in these matters, being supplier, service-provider as well as consultant when it comes to exchanging Danfoss parts and equipment.

WHY CHOOSE US?

Since the establishment of B COOL in 2002, we have provided maintenance services and developed refrigeration systems, refrigeration equipment and HVAC systems on board ships and other marine installations.

From our headquarters in Risskov, Denmark, we serve a wide range of customers worldwide, including reefer, cargo, offshore, cruise, ferry, yachts, fishing boats, and the industry with refrigeration solutions and spare parts.

In B COOL, we take pride in being available with our advice and services to our all of our customers anywhere, anytime. We take pride in creating customized refrigeration solutions that optimize the output of the entire cooling and heating system.

B COOL is always ready with the right solution – wherever and whenever.
