

ABSORBENT PADS

SPILL ABSORBENTS

Oil-only Absorbent Pads Because everyone needs a pad!

[FEATURES]

- Specialized for oil and other petroleum-based spills; repels water
- Floats on water and remain intact even when saturated with oil
- Quick ability to soak up high volumes via Absorption & Adsorption Technology
- Stable for prolonged storage; temperature and humidity resistant
- Replaces messy and wasteful conventional cleaning methods
- Incinerated to less than 0.02% ash. High BTU value, 22,000 BTUs per pound
- Melt-blown Polypropylene Construction

[APPLICATIONS]

- Light-weight, pre-cut pads used for absorbing leaks, drips and spills
- Commonly used to skim oil spills off water surfaces
- Place pads around machinery, under leaky pipes or fittings, in messy traffic areas, or anywhere you need to ensure your facility is clean, safe and compliant
- Also ideal as wipes for daily maintenance and repair operations to remove unwanted working fluids on machinery and equipment
- Applicable for both indoor and outdoor environments

SPILL ABSORBENTS

Universal Absorbent Pads

Because everyone needs a pad!

[FEATURES]

- All-purpose absorbents that absorb all industrial fluids (water-based and petroleum based)
- Industrial gray colour masks fluids spill, enabling longer usage and maximum utilization
- Quick ability to soak up high volumes via Absorption & Adsorption Technology
- Stable for prolonged storage; temperature and humidity resistant
- Replaces messy and wasteful conventional cleaning methods
- Incinerated to less than 0.02% ash. High BTU value, 22,000 BTUs per round
- Melt-blown Polypropylene Construction

[APPLICATIONS]

- Light-weight, pre-cut pads used for absorbing leaks, drips and spills
- Universal absorbency makes it versatile for almost all types of industrial spills
- Place pads around machinery, under leaky pipes or fittings, in messy traffic areas, or anywhere you need to ensure your facility is clean, safe and compliant
- Also ideal as wipes for daily maintenance and repair operations to remove unwanted working fluids on machinery and equipment
- Ideal for indoor environments

ABSORBENT PADS

SPILL ABSORBENTS

Haz-Mat / Chemical Absorbent Pads

Because everyone needs a pad!

[FEATURES]

- Pads are surfactant-treated to become chemically inert to handle aggressive fluids
- Hi-visible green colour for clear identification of hazardous materials spillage
- Quick ability to soak up high volumes via Absorption & Adsorption Technology
- Stable for prolonged storage; temperature and humidity resistant
- Replaces messy and wasteful conventional cleaning methods
- Incinerated to less than 0.02% ash. High BTU value, 22,000 BTUs per round

ABSORBENT ROLLS

SPILL ABSORBENTS

Oil-only Absorbent Rolls Never fear for a spill that keeps rolling!

[FEATURES]

- Specialized for oil and other petroleum-based spills; repels water
- Floats on water and remain intact even when saturated with oil
- Quick ability to soak up high volumes via Absorption & Adsorption Technology
- Stable for prolonged storage; temperature and humidity resistant
- Replaces messy and wasteful conventional cleaning methods
- Incinerated to less than 0.02% ash. High BTU value, 22,000 BTUs per round
- Melt-blown Polypropylene Construction

[APPLICATIONS]

- Absorbent Rolls are the alternative form of absorbent pads for quick and easy deployment over a large area
- Perforation allows you to choose the desired length needed
- Ideal to line under leaky pipes or fittings, and to surround fluids handling areas such as fluids testing bays, mud pump, drilling floor, washing bay, etc

ABSORBENT SOCs & Pillows

SPILL ABSORBENTS

Absorbent SOCs

Absorbents to help you get around a situation

[FEATURES]

- Absorbent SOCs are flexible tubes that contain and absorb liquids
- SOCs mold around corners and conform to uneven surfaces to soak up spills and drips, preventing fluid from escaping to other areas
- Tough, chemical resistant polypropylene cover resists chemicals and tearing and holds fluids within, even when saturated

[APPLICATIONS]

- Usable for any indoor, outdoor and/or hazmat application.
- Due to its flexible nature, Absorbent SOCs usually serve to barricade a spillage area to prevent the spill from spreading (e.g. wrap around bases of machinery, covering corners, lining along drain edges to prevent spill from entering drainage, etc).

ABSORBENT SOCs & Pillows

SPILL ABSORBENTS

Spill Absorbent Pillows

Too big a spill and too many pads to manage?

[FEATURES]

- Absorbent Pillows have higher capacity, larger surface area and great capillary abilities to soak up fluids quickly
- Tough, chemical resistant polypropylene cover resists chemicals and tearing and holds fluids within, even when saturated
- Compact design fully packed with absorbent filler with UVA resistant cover

[APPLICATIONS]

- Usable for any indoor, outdoor and/or hazmat application.
- Ideal for potential high capacity spillages or catching persistent point-leakages (e.g. collection, reservoirs, and troughs, underneath pipelines or valve openings of machines where potential spill surge occurs).
- Pillows can also be placed under Spill Containment Pallets for easy clearing of drips and leaks from storage container above the pallets.

SKIMMING BOOMS

SPILL ABSORBENTS

Oil-Skimming Booms

Because oil & water don't like each other!

[FEATURES]

- Absorbs and retains oils and oil-based liquids including lubricants, fuels and crude oil, without absorbing a drop of water
- Tough, chemical resistant outer mesh and inner skin keeps polypropylene filler inside for a lint-free boom with maximum absorbency and outdoor durability
- Booms keep absorbing and stays afloat even when fully saturated and have built-in clips to join booms together for the desired length
- Inner rope gives added strength and enabling easy deployment and retrieval on water

[APPLICATIONS]

- Oil-Skimming Booms are used to skim and absorb oil off water surfaces contaminated with hydrocarbons
- Mainly used on offshore spills as oil absorbing barricades to prevent spreading of the spillage and also soak up oil contaminants from the water surface.
