

COMPANY PROFILE

ABOUT

Since 2006 BPCO LTD Ship Brokers have provided a wide range of specialized products designed specifically for the marine industry.

- ✓ Drydock Repairs
- ✓ Shipbuilding equipment
- ✓ Fuel additives
- ✓ Energy efficiency devices and other special products for marine industry
- ✓ Underwater services
- ✓ Supply of Genuine spare parts
- ✓ Training center of Panasia Systems
- ✓ After sales support and Troubleshooting

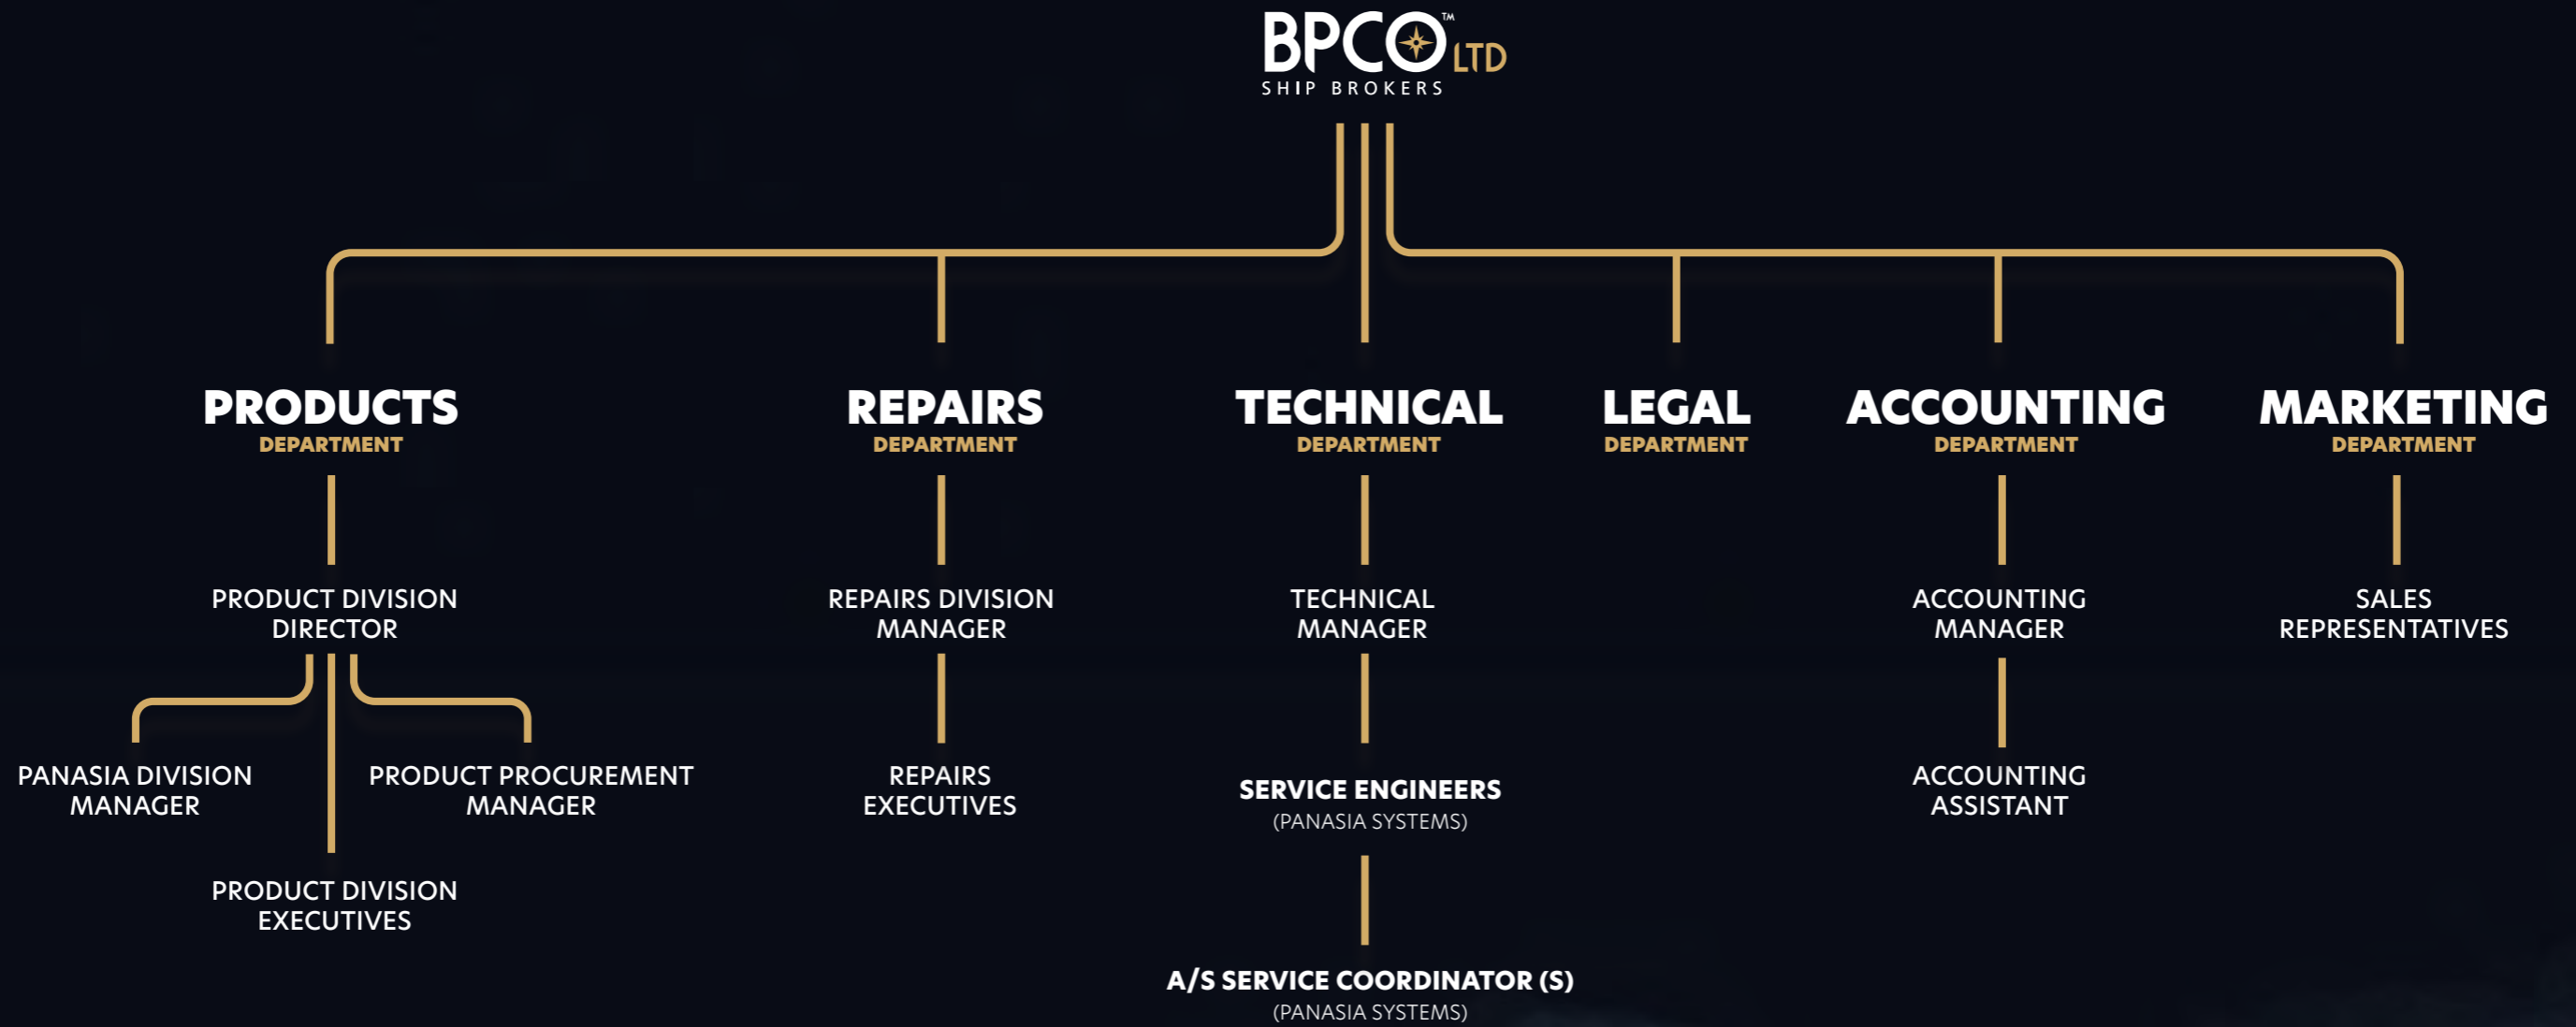

With the establishment of BPCO LTD, Arsenios T. Papatheodorou aimed to create a comprehensive maritime company that would cater to the diverse needs of the shipping industry, offering a wide range of services as an one-stop shop for all maritime needs.

Our goal is to establish ourselves as a leading force in the shipping industry by offering shipping companies worldwide a comprehensive range of fast, innovative, efficient, and integrated international services, ensuring competitive pricing and exceptional quality for our valued clients.

Our organization possesses the necessary size and capability to tackle any challenge that comes our way, while still maintaining a personal touch and genuine concern for our clients.

WE ARE BIG ENOUGH
TO MEET THE CHALLENGE
& SMALL ENOUGH
TO CARE

ORGANIZATIONAL CHART

40 FULL TIME EMPLOYEES

BPCO MILESTONES

BPCO LTD has established strong exclusive partnerships with top-tier organizations in the maritime sector, delivering premium services globally. These collaborations emphasize BPCO LTD's dedication to high standards and excellence. The company offers specialized services such as ship repair, navigation systems, safety solutions, and more. This diverse portfolio caters to the unique needs of each vessel, providing a comprehensive solution for maritime businesses.

Our commitment to innovation and technology ensures that you stay ahead in the evolving maritime industry. Investments in cutting-edge equipment allow us to exceed client expectations.

We prioritize sustainability and environmental responsibility. Partnering with like-minded companies, the organization positively contributes to the global maritime community, aiming to preserve oceans for future generations.

SHIPYARDS REPRESENTATIONS

Finding the correct and suitable shipyard is a difficult task for any Technical Department of a shipping company. Competition is hard and the determining criteria are many, while the market is open and globalized.

Shipping companies basically seek to satisfy three prerequisites: Reliability, quality and price; either it is for scheduled and/or urgent ship repairs, or conversions and newbuildings. The set requirements and competition among the shipyards is being increased during periods of high instability and volatility in the shipping markets. Shipping companies are often ready to alter their usual trading routes in order to achieve the best price/quality ratio possible for the repairs. Especially after the emergence of the niche markets, the choices are many; however few are the shipyards that can sustain this required high level quality / price ratio for a long period of time. BPCO LTD Shiprepair Brokers is having long experience in engineering and shipbuilding projects and constantly evaluates the markets and the options for its clients. While we represent a large number of shipyards worldwide we also prefer to recommend and support those shipyards which can constantly satisfy the demanding criteria regarding quality and price.

REGIONS:

- ✓ AMERICA & CARIBBEAN
- ✓ FAR EAST
- ✓ BALTIC SEA/WEST EUROPE
- ✓ EAST MED. SEA/BLACK SEA
- ✓ INDIAN OCEAN / MIDDLE SEA & AFRICA

EXCLUSIVE AGENTS:

Malaysia Marine and Heavy Engineering Holdings Berhad (MHB) is a globally trusted energy and marine solutions provider for a wide range of offshore and onshore facilities and vessels.

MHB has 50 years of track record in delivering integrated and complex solutions to international oil & gas clients. Owns and operates the largest fabrication yard in Malaysia and Southeast Asia that is equipped with world-class facilities, MHB is recognised for its expertise in offshore deepwater fabrication, offshore conversion services and ship repair which include LNG carrier repair and dry docking. MHB also owns three dry docks which are amongst the largest dry docks in Southeast Asia.

MHB operates a regional Centre of Excellence - a learning centre that produces technically expert workers for the oil & gas and marine industries.

MHB acknowledges the importance of delivering solutions that are sustainable to our stakeholders, providing services that support the global energy transition in the areas of renewable energy, decarbonisation such as carbon capture facilities & energy efficiency.

Capabilities and track record in summary:

Full range engineering, procurement, construction, installation & commissioning (EPCIC) services for offshore structures

Complete offshore facility conversion services in one location

Comprehensive ship repair, refurbishment, upgrading and life extension of various types of vessels and rigs

FACILITIES

MMHE West and East Yard are situated in the Southern part of Malaysia, located in the state of Johor, 22 km from Johor Bahru & 27 km from Singapore.

The 2 fully equipped yards are well-positioned along one of the busiest shipping lanes of the South East Asia. We are strategically located at 41 km from Senai International Airport and only 4 km from Johor Port.

MARINE REPAIR FACILITIES

FACILITIES	INFORMATION & DIMENSIONS	
Dry dock 1	385m x 80m x 14m	Capacity: 450,000 dwt
Dry dock 2	270m x 46m x 12.5m	Capacity: 140,000 dwt
Dry dock 3	350m x 80m x 14m	Capacity: 400,000 dwt
Land berth 1	345m	
Land berth 2	345m	
Shiplift	188m x 33.8m x 8m	
6 Quays/Berth	Up to 1.889m in length	8M Draft Average

CernaVal Shipyard is a private owned Shipyard, based at Algeciras Port Bay.

With 40 years of experience, large ship repair center has become one of the most important private ship repair and maintenance shipyards in Spain and part of Europe. Thanks to the perseverance and continuous investment not only in capital but also in effort of the Lopez family, the Group has been consolidating its position, becoming a reference in the Mediterranean and Strait of Gibraltar for the coming decades.

UNDERWATER SERVICES

BPCO LTD has established a worldwide network of Exclusive Principals by specialized and certified Diving companies.

Our network consists of fully equipped and manned companies by experienced personnel that is able to offer quality services.

We can undertake any underwater service depending on the location's visibility, tides, and local authorities' instructions.

THE SERVICES PROVIDED INCLUDE:

- ✓ UNDERWATER HULL CLEANINGS
- ✓ IN WATER SURVEYS
- ✓ PROPELLER POLISHING & PROPELLER AFLOAT REPAIRS
- ✓ SALVAGE & ANCHORS
- ✓ UNDERWATER BLANKING & COFFERDAM INSERT REPAIR
- ✓ UNDERWATER TEMPORARY & PERMANENT REPAIRS UNDER ALL IACS SOCIETIES

AFLOAT REPAIRS

BPCO LTD has developed considerable knowledge and wide experience in the Maritime Sector. Our vision always remains to deliver fast, innovative, efficient and integrated maritime services to our clients.

We have expanded our network of Exclusive Principals in the afloat ship repair services. Our network consists of companies fully equipped and manned by experienced personnel that are able to offer quality services.

THE SERVICES PROVIDED INCLUDE:

- ✓ AFLOAT DAMAGE REPAIRS
- ✓ ELECTRICAL & AUTOMATION WORKS
- ✓ STEEL & PIPING REPAIRS
- ✓ HYDRAULIC AND MECHANICAL WORKS
- ✓ MAIN & AUXILIARY ENGINE REPAIRS
- ✓ CRANE REPAIRS
- ✓ STERN TUBE REPAIRS

- MAIN ENGINE SPARE PARTS
- AUX ENGINE SPARE PARTS
- BOILERS / INCINERATORS
- FILTERS / SEPARATOR / COMPRESSORS / PUMPS

PANASIA

Since its establishment in 1989, PANASIA has become a leading global provider of eco-friendly and energy-efficient solutions, focusing on air quality, water quality, and hydrogen business. Their commitment to environmental sustainability has led them to develop innovative technologies that promote harmony with nature, fostering partnerships with companies both domestically and across Asia, eventually expanding their reach worldwide. By prioritizing eco-friendly technologies, PANASIA continues to tackle new challenges and contribute to a greener future for our planet.

To reduce carbon emissions in the marine industry, Carbon Capture and Storage (CCS) is being developed as a solution. CCS captures, transports, and stores CO₂ emitted from power plants and industrial facilities underground. Carbon Capture, Utilization, and Storage (CCUS), captures and utilizes carbon dioxide for commercial applications. The PAN-CCUS[™] system and the PANAGEN Hydrogen Generation System are eco-friendly solutions developed by PANASIA for the marine industry. These technologies will help reduce the carbon footprint of the industry and promote a sustainable future.

OUR SOLUTIONS

- ✓ AMMONIA CRACKING SYSTEM (ACS)
- ✓ STEAM METHANE REFORMER
- ✓ CARBON CAPTURE EQUIPMENT (NEW PRODUCT)
- ✓ BALLAST WATER TREATMENT SYSTEM (BWTS)
- ✓ DESULFURIZATION SYSTEM FOR SHIPS (DE SO_x)
- ✓ DENITRIFICATION SYSTEM FOR SHIPS (DeNO_x)
- ✓ CARBON CAPTURE UTILIZATION AND STORAGE SYSTEM (CCUS)
- ✓ MEASUREMENT CONTROL SYSTEM (TLGS)
- ✓ TRAINING CENTERS

Founded in 1946 by Willi Becker, Becker Marine Systems has grown into the market leader for maneuvering systems and energy-saving devices in the maritime industry. With a strong focus on specialized rudder solutions for challenging operating conditions, such as those found on dredger vessels, Becker Marine Systems has established a reputation for excellence and innovation. Their team of professionals works tirelessly to develop new products and technical solutions for customers, ensuring optimal vessel performance and environmental sustainability.

With products like the Becker Twist Rudder and the Becker Mewis Duct®, a triumph in sustainable shipping, has seen over 1,000 units sold, facilitating a remarkable reduction of over 4.0 million tons of CO2 emissions on our oceans. Becker Marine Systems stands at the forefront of environmental stewardship, providing solutions that not only enhance vessel performance but also contribute significantly to a greener and more sustainable maritime future.

OUR SOLUTIONS

- ✓ ENERGY SAVING DEVICES
(BECKER MEWIS DUCT, BECKER MEWIS DUCT TWISTED)
- ✓ MANOEUVRING SYSTEMS
(BECKER TWIST RUDDER, HYPERLINK BECKER FLAP RUDDER,
BECKER SCHILLING® RUDDER)

Power Research Inc. (PRI) was established in 1983 with the goal of revolutionizing fuel behavior through their proprietary chemistry, which has been validated under the stringent testing protocols of the EPA and Marpol Annex VI. This innovative company also developed a synthetic-based lubricity additive technology for the early low sulfur diesel fuels introduced in California.

Nowadays, PRI's thermal stability chemistries for VLSFO/HFO, MGO, MDO, and gasoline are trusted by over 250 commercial shipping companies and countless onshore facilities and individuals worldwide. Their products offer significant benefits, including improved vessel performance and increased fleet profitability. By adhering to international air pollution requirements and regulations like Marpol Annex VI and the U.S. Environmental Protection Agency's sulfur content mandate, PRI continues to contribute to a cleaner and more sustainable future in the shipping industry.

OUR SOLUTIONS

- ✓ PRI - FLOW
- ✓ PRI - 27
- ✓ PRI-D
- ✓ PRI-SOLV
- ✓ PRI-STX
- ✓ PRI-XL
- ✓ PRI-XLR8
- ✓ PRI-ECO

HLB Networks Co. Ltd. was founded in 2009, leveraging 50 years of experience in the lifeboats field. The company focuses on meeting customer needs through manufacturing technology and safety services, adhering to IMO/SOLAS regulations MSC/Cir 1206. Their commitment to customer satisfaction is reflected in their global service networks, ensuring quality and safety across the industry.

Cold Ironing has gained importance since 2004 and is becoming mandatory, leading to increased shoreside power investments. Hyundai Electric's system utilizes various terminal currents, offering benefits like reduced emissions, and lower costs. Cold ironing provides alternate power during loading/unloading, helping preserve marine ecosystems and reducing diesel usage. shipping industry.

OUR SOLUTIONS

- ✔ Lifeboat and davit maintenance
- ✔ Repair and refurbishment
- ✔ Supplying genuine spare parts
- ✔ GRP - GRE pipes
- ✔ AMP Systems / Cold Ironing
- ✔ Service engineer training

mts Global

MTS Global, founded in 2004, specializes in marine diesel engine services with a team of experts providing comprehensive technical services worldwide, 24/7. Their services include repair jobs, assembly, inspections, maintenance, overhaul, component replacement, troubleshooting, retrofit services, and reconditioning.

They also offer special services like lifetime engine care, system optimization, SCR maintenance, lock and stitching, welding repair, and turbocharger services. MTS Global's training programs cover preventive maintenance to diagnostics and repair, and they conduct cost-benefit analyses for MTRCS power supply options.

OUR SOLUTIONS

- ✔ SUPPLY OF GENUINE SPARE PARTS (HSD - STX - MAN ENGINES)
- ✔ ENGINE UPGRADES

OUR PRESENCE IN THE GREEK MARKET

With an 18-year legacy in the shipping industry, we take immense pride in showcasing the esteemed shipping companies that have placed their trust in our organization.

These top-tier companies have consistently relied on our expertise and services, cementing our reputation as a dependable and valued partner in the maritime sector.
