

**Den-Jet**

Manufacturer of Water-Blasting Equipment

We have manufactured special units for container vessels due to space concerns, special units for product carriers with safety aspect as the prime focus. All units are supplied with general documentation, as well as special manuals for the bosun and service video. Den-Jet supplies complete packages for "plug and play" - no excuse from the crew not to use it.

**CE20-500 MasterMariner**

Our bestseller for all types of vessels with an operating pressure of 500 bar. This model is the ideal tool to use onboard for spot blasting to replace the normal hand tools still being used. Slim design to fit all walkways. Minimum investment - maximum performance.

CEX20 & CEX40 Series

The ATEX certified machines are electrically driven pumps with a pressure from 400 to 2000 bar and flow from 9 to 40 L/min. All the electrical components are of EEX standard. The models are using onboard crude oil, chemical tankers where safety plays an important aspect.

Den-Jet
... there is no substitute.
