

# DECKHOUSE SHIP SUPPLY

Deckhouse Ship Supply is dedicated to serve you and your crew whenever you need. We physically serve from Brownsville, Texas to New Orleans, Louisiana including most of the ports of US Gulf. We will deliver any necessary supplies to your vessels at offshore, in port, at berth, at anchorages or off-port limits.

At the time of delivery we make sure that perishables are fresh, frozen products are well frosted, stores are clearly marked and are separated from beverages/foods and each ordered item you asked for is delivered precisely.

Deckhouse Ship Supply offers you the best service quality with a wide range of specialty products to satisfy you, and cover anything your vessel needs. We work 24 hours a day, 7 days a week to make sure that you, and your crew have everything they need for a safe and comfortable journey at sea.

Our core aim to find a solution, not to create a problem.

# A BIG DELIGHT IN EVERY BITE

If you want harmony and productivity, give your crew a good food.

That's a smart captain's trick used for centuries.

Because good food builds morale subsequently harmony and productivity, happiness and collaboration.

That's the reason why at Deckhouse we emphasize the quality for Provisions and Fresh Produce supply.

Just to help smart captains to do their jobs.

**LOW COST AND SHORT NOTICE  
REPAIR & FABRICATING SERVICES**

**DECKHOUSE**  
*brings good things*

We assist you with all kinds of urgent or scheduled repairs and services regarding the Navigational and Communications equipment, Engine Room, etc.

Also, if there is a spare part you need that our affiliate company cannot provide, we will provide it to you in the most cost and time efficient way possible. Even during the holidays, we will be working to make your life easier by making the impossible happen.

Our marine engineers will do their best to serve your Chief Engineers on board and Superintendents in your office with a problem free fabricating job that will fit and work as expected.

We can assist you with the following:

- » On board repair service for the entire navigational and communications equipment,
- » Re-manufacturing of PCB cards and spare parts for a certain model or brand,
- » Any size electric motor rewinding, bearing replacement and on site service for ship electric system including the main switchboard and alternator,
- » Any on board repair, pipe work, overhauling, planned or emergency repair,
- » Emergency replacement part fabricating from a sample of a technical drawing.

# LOOKS FRESH HUH!

*How about Inside?*

*If it is from Deckhouse, surely it is.*

*At Deckhouse we measure temperature at total 5 points from the receiving point to the delivery point in our vehicles.*

*We call it CCP (Critical Control Points).*

*Even HACCP is not mandatory in this industry, we still follow strictest rules for your crew to enjoy the taste of fresh fish, meat, poultry, produce and dairy products.*

*Just another detail making Deckhouse one step ahead.*

Your business  
is not a 9 to 5 job.

So why have  
a 9 to 5 ship's chandler?

At **DECKHOUSE**, we start the day  
as early as 1:00 am EST (6:00 am GMT),  
then stay open for another 16 hours.

That's just another way we bring  
"Customer Satisfaction!"
