

ALEXANDER GOW

FIRE EQUIPMENT COMPANY

FULL SERVICE FIRE SUPPRESSION PROTECTION

THE LEADERS IN MARINE FIRE SAFETY SINCE 1928

WE ARE AUTHORIZED DISTRIBUTORS FOR:

MARINE FIRE SUPPRESSION SYSTEM SALES

We are available to supply and install systems utilizing an array of the most efficient and widely used fire suppression agents.

They are non-corrosive, electrically non-conductive, odorless, and are safe around electronics.

All are UL, FM, and USCG listed and approved.

Types of systems:

- CO²
- FM-200
- NOVEC 1230
- Sapphire
- Water mist

ABS/USCG ANNUAL FIRE EQUIPMENT INSPECTION

Our certified service technicians perform annual ABS and USCG fire equipment inspections on all types and sizes of vessels, from yachts to large container ships.

In addition to annual inspections and certification, we also offer inspection and service of:

- Fire detection systems
- Galley suppression systems
- Fire hoses
- Life safety equipment/turnout gear
- SCBA flow testing and cylinder recertification
- Hydrostatic testing and recharging

SUBCHAPTER M UPDATES AND COMPLIANCE

We can help you achieve and maintain compliance with Subchapter M requirements.

We provide all facets of fire protection to assist you in being correctly equipped for your type and size of vessel.

This includes:

- Fire suppression
- Fire detection
- SCBA equipment
- Correct size/type of extinguisher based on: its location on board, the type of hazard it protects, and the vessel type.
