Fleet Storage

Fleet Spares Stored for Economic, Swift Response.

Whether it be complete units, rotors, nozzle rings, cartridges or any vital component, Marine Turbo are happy to hold fleet spares for you at any of our worldwide locations until they are required for use by your fleet.

Guaranteed Exchange Units

Every year millions of miles are being covered by ships whose turbochargers we have supplied or maintained.

Turbocharger Cartridge assemblies can be supplied on an exchange basis or outright sale basis with a minimum 12 month warranty provided. Our cartridge exchange program is designed to support your vessel in achieving maximum productivity and minimal downtime.

For further details about our cartridge exchange program please contact us using the below email address – please include the make and model of your turbocharger.
