

A FULLY INTEGRATED  
'AFRICAN'  
MARINE SERVICES COMPANY

## MARINE GROUP

[www.bossmarine.com](http://www.bossmarine.com)

## COMPANY INTRODUCTION

The CEO, Peter Blofield, founded the company in Durban, South Africa in 2002, starting with Marine Security, Crew Transport and a single launch.

The Company soon developed a comprehensive range of specialised services for the Maritime Industry. Since inception, Bosss Marine has been providing seamless, added value services to all clients, around the clock and around the African Coastline.

Bosss is a fully integrated maritime safety service provider which equates to considerable savings for our clients and business partners.

Our highly trained technicians and engineers are specialised in a range of service categories and regularly carry out repairs and services in most coastal African countries such as :

Angola, Mozambique, Ivory Coast, Equatorial Guinea, Congo, DRC, Senegal, Liberia, Gabon, Togo, Cameroon, Reunion, Madagascar, Kenya & Tanzania, where BOSSS MARINE do not have a current permanent presence.

# COMPANY QUALITY OBJECTIVES

- Maintaining accreditation with a world class Quality Management System – DNV ISO 9001. Compliance with such a system will ensure customer retention and customer satisfaction.
- Ensuring Continuous improvement in the way business is conducted through conducting assessments on past projects to identify bottlenecks in existing procedures and systems.
- Identifying Customer needs early on in order to ensure that expectations are met, where possible.
- Continuous training of Technicians and other employees to ensure and maintain the highest quality standards
- Achieving and Maintaining Financial Stability using measurable objectives.

# DEVELOPMENT

Since inception, BOSSS has steadily added to its African footprint and improved on its range of services.

New Branches have been strategically established, based on the historical demand by Customers in those Ports.

BOSSS has established itself as the leader in Africa, in the field of Maritime Safety and, it is our Company's philosophy to pay close attention to our clients developing needs to ensure that they receive a world class service when needed.

It is in this vein, that BOSSS Marine continues to develop their range of value adding services, and to grow their footprint, in order to provide a cost-effective service for their customers.

Annually, the BOSSS Marine Group, services in excess of 1500 vessels in and around Africa.

# LIFEBOAT AND DAVIT SERVICING

- BOSSS Marine is the first multi-manufacturer approved lifeboat and davit service in Africa.
- We are equipped and accredited for the servicing & repair of Lifeboats for over 27 manufacturers.
- BOSSS Marine understands the high cost of delays in Port and consequently fields technicians who are skilled in multiple services rather than specialised on a single manufacturer.
- All GRP repairs, both major or minor on Lifeboats, Rescue Boats are carried out in accordance with Manufacturers recommendations and with Class or Flag approval.
- Our services are approved by a number of major classification and regulatory societies and are all carried out in accordance with MSC. 402(96).

## We maintain and service the following:

- Lifeboats
- Inflatable Rescue Boats
- Rigid Rescue Boats/ Fast Rescue Craft
- Work Boats
- On and Off release hooks on rescue boats and lifeboats
- Free Fall Davits
- Gravity Hinge Davits

## Scope of Service include:

- Annual Inspection
- 5 yearly inspections & overhauls
- Dynamic Winch Brake testing
- Static Load testing
- GRP repairs and refurbishing of interior and exterior lifeboat

# LIFE RAFT SERVICING & SALES

- Life Rafts, according to SOLAS and local maritime rules, must be serviced annually.
- BOSSS have several approved Life Raft Service Stations around Africa, which are certified by local and international maritime authorities and major IACS classification societies.
- Our technicians are trained by the individual manufacturers and are kept updated on the latest standards and developments. BOSSS Marine offers annual servicing, certification, sales and repairs to most major life raft brands.
- We have also acquired a number of leisure life rafts which can be packed and housed in either a GRP capsule or valise.

SOLAS Approved

# FIRE FIGHTING EQUIPMENT

BOSSS Marine services has CLASS approved Fire Service Stations in all Country branches. Our Fire Technicians are SAQCC – Fire qualified and with come substantial industry experience.

Fire is the most dangerous situation for any ship. For this reason, all preparatory safety measures, controls and tests should be carried out before a fire. BOSSS Marine, through their skilled technicians, ensures that all firefighting equipment remains serviceable and that it complies with SOLAS and related regulations.

We provide servicing and sales of :

- Fire Extinguishers
- Fire Hose Reels and Hoses
- Hose Cabinets
- Fireman's Outfits
- Fire Blankets
- Hose Couplings
- Air Quality Testing
- SCBA
- EEBD
- Dry Chemical Powder Units
- Branch Pipes
- Foam Compound Units
- Foam Sample Analysis
- Fire Suppression Systems
- Medical Oxygen & Refilling
- Immersion Suits
- LEL Gas Detection Calibration Services

# PYROTECHNICS

BOSS MARINE  
NOW STOCK

Used in extreme emergency situations, these are provided onboard vessels to be used to grab the attention or inform other vessels in the vicinity, so as to seek their assistance for rescue. Basically, it is a visual method of sending SOS signals.

These pyrotechnics are used in times of distress and are mentioned in Annex 4 of COLREGs.

In the unfortunate event wherein one's own ship is beyond saving, pyrotechnics can be one of the last resorts for the ship personnel's survival and rescue out at sea.

- Red Hand Flares

- Rocket Parachute Flares

- Line Throwing Appliances

The World's leading  
Pyrotechnic Marine  
Rescue Signalling  
Product

- Buoyant Smoke Signals

- Man Overboard Signal  
Smoke Markers (MOBS)

- Linethrower 250 Rocket

# COURIER SERVICES

## SOUTH AFRICAN OPERATIONS Durban – Richards Bay – Cape Town

- BOSSS Courier Division has been delivering an impeccable and reliable service to the South African Maritime industry for over two decades.
- All Drivers are equipped with Professional Driving Permits (PDP) which ensures that they are well prepared in the event of an emergency, whatever the scenario.
- All vehicles and Drivers are monitored by our permanently manned control room, who in turn liaise with all clients, keeping them updated on all progress with their respective jobs.
- Each step of the operation is carefully scripted into our procedures, against which our Drivers are mentored, in order to provide a seamless and safe experience for all our clients.

# OFFSHORE SUPPLY & SERVICES

## SOUTH AFRICAN OPERATIONS Durban – Richards Bay – Cape Town

BOSSS, as of 2024, has 5 Offshore Launches operating in :

- Durban (3),
- Richard's Bay (1) and
- Cape Town (1).

- Gas Detection Analysers
- Thermal Imaging Equipment
- Personal Protective Equipment
- Preventative Maintenance and Inspections of all Equipment
- Pyrotechnics
- Immersion Suits
- Life Jackets
- Man Overboard (MOB) Equipment

## Introducing

## Range

### Portagauge® 6

Our ultrasonic testing equipment is accurate and reliable to BS EN 15317:2013 standard, making it ideal for ultrasonic thickness testing. At Coltraco, we strive to provide the best thickness gauges, all built in the UK to high standards, priced competitively, and with a relevant calibration certificate.

The echo-echo range we offer ignores paint coatings up to 20 mm. This means you get a true material or wall thickness reading from the test object. A scan is accurate to +/- 0.1 mm, and this perfect echo measuring principle helps measure various surfaces accurately.

### **Non-invasive pressure monitoring system**

Portagas® is a unique and innovative contents monitoring solution for pressurised, non-liquified inert gas cylinders. Through a combination of sophisticated signal processing and data-driven, empirically verified algorithms, Portagas® utilises acoustic technology.

#### Applications :

Types of gases: Inergen®, Nitrogen, Oxygen, Propane, Methane, Chlorine, Ammonia, Hydrogen, CO<sub>2</sub>.

Introducing the portaLEVEL® IS As the world's first innovative portable ultrasonic liquid level indicator with dual IECEx and ATEX certification, Coltraco Ultrasonics' Portalevel® INTRINSICALLY SAFE meets stringent safety standards for explosive atmospheres, making it suitable for use globally in both Zone 1 and Zone 2 hazardous areas. The device measures liquid levels contained in fire suppression cylinders in hazardous zone environments.

### Why Choose Coltraco's Ultrasonic Flow Meters?

Our flow measurement devices provide accuracy and reliability, as proven at an ISO 17025-certified laboratory. We're committed to providing the highest quality instruments to the UK market while remaining competitive on price. These ultrasonic meters are built with a special composite material to optimise ultrasound transmission, and all units come with a built-in oscilloscope for signal diagnostics that assists you in performing reliable measurements.

Our transit-time meters far surpass mechanical flow meters, with an accurate flow sensor that can calculate volume flow easily. Each ultrasonic flow meter from Coltraco is designed to cater to a wide range of pipe sizes. They are virtually maintenance free and once they're installed, these ultrasonic flowmeters get straight to work.

Contact Your Nearest Branch for a Quote on the full range of Coltraco Ultrasonic Equipment.

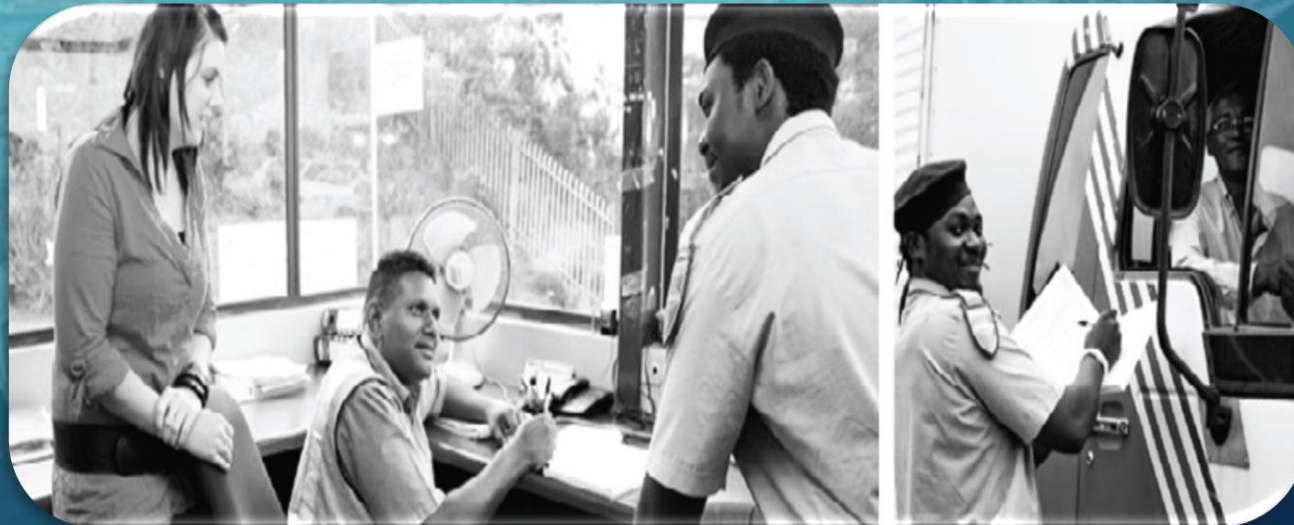

# MARINE SECURITY

**B**OSSS Security has been offering impeccable service to our clientele for more than two decades. Our philosophy is to add value to our clients by offering a holistic range of allied and integrated solutions.

These include:

- Industrial and Marine Security
- Fire & HSE Services
- Gangway Security
- Technical Assistance

# CERTIFICATION & TRAINING

*BOSSS Marine invests time and resources into staff training and development, and we pride ourselves on achieving our ISO objectives year after year. BOSSS Technicians from around the continent regularly undergo refresher training on the latest industry standards.*
