Willkommen an Bord !

Bukh Bremen GmbH has been your B2B partner for technical accessories and equipment for professional and recreational boating for around 50 years. As a leading importer and wholesaler in Germany, we offer you first-class products and set standards in quality and service. We focus on the customer, who is supported by our experienced sales team in all matters. From the concept to the offer, to optimal stocking and delivery, we always have our customers in mind.

With over 50 top brands and approximately 70,000 items, including more than 10,000 items always in stock, from the fields of engine technology, electrics, paints, comfort safety equipment, and much more, we offer everything that specialist dealers, shipyards, and industrial companies need for optimal operation and the implementation of their projects. Our modern warehouse has an area of 3,600 m², 1,000 pallet spaces, and 5,000 meters of shelving. Motivated employees, combined with excellent intralogistics, ensure that we can deliver quickly and reliably.

Facts

- ▶ 50 years as a B2B partner
- ▶ 50 top brands
- ▶ 70,000 items
- ▶ 10,000 items always in stock
- ▶ 3,600 m² of storage space
- ▶ 1,000 pallet spaces
- ▶ 5,000 meters of shelving

Bukh Bremen GmbH is a subsidiary of Alliance Marine SAS. With a network of more than 20 companies, the Alliance Marine Group is one of the industry leaders in Europe.

As part of the Alliance Marine Group, we benefit from our broad perspective and constantly monitor the latest international trends for you.

Work with us as a professional:

Our employees are professionally trained and offer you advice based on many years of technical experience. Your personal contacts are available to you in many ways and are happy to answer your questions.

Catalog

Our new specialist trade catalog provides you with a quick overview of our core product range. Use the catalog for orientation and as a working aid for your consultation with your customers.

You can find your current prices for the products in the catalog in your customer account in our web shop. At www.bukh-bremen.de, you will find approximately 60,000 additional items.

Would you like personal advice on site?

Our area managers are happy to assist you in person on site.

Advice on our products, optimisation of your portfolio, presentation of new products or simply improving cooperation with us.

In short: your area manager takes care of you.

Simply make an appointment, we look forward to seeing you.

SYNCHRONIZED VIBRANT COLOR

Apelo Light Controller

Transform your space into a stunning visual display, with unified control of all Apelo RGB/W Underwater, Interior, Flood, and Courtesy lamps; plus a selection of universal RGB products.

Effortlessly group and intelligently network multiple sets of lights and controllers wirelessly.

Then show your true colors with fully synchronized, completely customizable lighting throughout your vessel.

Customizable Lighting

Easily create custom lighting or switch between preset modes, combining convenience and creativity in every use.

Mesh Communication

No wiring required for controller integration – the units communicate wirelessly.

Effortless Control

Seamlessly move between a multi-pole switch and the intuitive Apelo App to control your lighting.

Synchronized Lighting

Synchronize colors and groups of lights throughout your vessel.

Part Number	Description
5XA 185 814-001	Apelo Controller

- 0.4W / 0.05A (50 mA) @ 12V DC
- 12/24V Multivolt™
- Simple 4 wire connection
- 30 Degree downward lighting angle
- Chrome, White or Stainless Steel trim option
- Fits 25mm hole

- 3W White (0.25a @ 12V DC)
- 12V DC only (9-16V)
- 4W Hub (0.25a @ 12V DC)
- 3W White (0.25a @ 12V DC)
- Stainless Steel or White trim option
- Fits standard 50mm / 2" hole.

Part Number	Description
2JA 958 126-531	Apelo RGB Step Lamp - White
2JA 958 126-541	Apelo RGB Step Lamp - Chrome
2JA 958 126-551	Apelo RGB Step Lamp - Stainless Steel

Part Number	Description
2JA 017 884-001	Apelo EuroLED 75 Round RGB/W - White
2JA 017 884-011	Apelo EuroLED 75 Round RGB/W - Stainless

PERFORMANCE MATTERS

AQUA VOID

CARTRIDGE BILGE PUMP
Quick-Change Motor Connection

- Simple cartridge motor replacements and capacity upgrades.
- New high-flow impeller

AQUA VOID AUTO

CARTRIDGE BILGE PUMP
Advanced Sensing Technology

- The pump automatically detects water using resistance.
- No external switch is required.

AQUA VOID COMBO

CARTRIDGE BILGE PUMP
Advanced Sensing Technology

- Incorporates Ultima Electronic Automatic Switch for automatic operation.
- Ensures precise water detection and pump activation.
- Resistant to corrosion and debris for enhanced durability.
- Switch is completely sealed and does not come into direct contact with water.

DIE PERFEKTE LÖSUNG FÜR ZUVERLÄSSIGEN STROM AN BORD

Unsere Mission: Ein Produkt ist erst dann perfekt, wenn der Benutzer es nicht sieht und kaum hört. Genau das bietet die WhisperPower Piccolo-Serie – leise, leistungsstark und effizient.

Die Piccolo-Flüstergeneratoren überzeugen durch ihre kompakte und leichte Bauweise sowie ihre hohe Leistungsfähigkeit (von 3,5kVA bis 18kVA). Dank der effektiven Permanentmagnet-Dynamo und der fixierbaren Drehzahl entsteht eine optimale Bilanz zwischen Drehzahl, Leistung, Geräuschentwicklung und Vibrationen.

Als Herzstück unseres intelligenten OctoPower-Systems bieten sie die ideale hybride Stromlösung an Bord. Neben den AC-Modellen sind auch DC-Generatoren erhältlich. Ergänzend dazu liefern wir hochwertiges Zubehör und Installationskits, um eine nahtlose Integration zu gewährleisten.

Verlassen Sie sich auf die Sicherheit und den Support unseres weltweiten Servicenetzwerks – für eine zuverlässige Energieversorgung, egal wo Sie sich befinden.
