

VIVAR

MARITIME SERVICES

Vivar Ship Supply B.V.

SUPPLYING VESSELS WORLDWIDE FROM THE HEART OF EUROPE'S BUSIEST PORT

From the port of Rotterdam, Vivar Ship Supply B.V. has been setting the standard in maritime supply and logistics for over 90 years. As a cornerstone of the Vivar Group, we provide reliable, efficient, and integrated ship supply solutions that keep fleets fully operational, wherever they are in the world.

We understand that your vessels rely on speedy and correct delivery of stores. This means knowledge, flexibility and precision are key factors. That is why we offer a complete range of high-quality maritime supplies, backed by a modern logistics infrastructure and a team that's available 24/7.

Our extensive product offering includes:

- Engine- and deckstores
- Cabin, galley, and welfare items
- Medical supplies, safety equipment, and PPE
- Mooring ropes

Our logistical capabilities set us apart:

- Strategically located 10,000 m² warehouse in Rotterdam with efficient stock policy
- Own diversified delivery fleet for rapid response to all major European ports
- AEO-certified for smooth and efficient customs handling
- Fast, flexible service aligned with vessel schedules

Thanks to our experienced staff, wide supplier network, and seamless integration within the Vertom Group, we are able to meet high demands with short lead times, without compromising on quality or service. From basic supplies to critical spares, you can rely on Vivar Ship Supply B.V. to keep your vessel fully equipped and operational.

AS PART OF THE VIVAR GROUP, WE GO BEYOND TRADITIONAL SHIP SUPPLY. WE OFFER INTEGRATED SUPPLY CHAIN SERVICES, INCLUDING:

Warehousing and inventory management

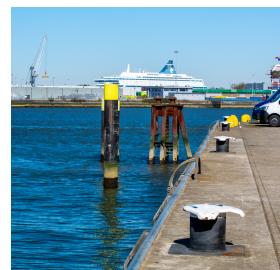

Owner's spare part handling & storage

Freight Forwarding

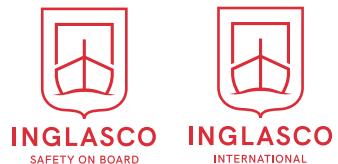

Transport coordination

Private lay-by berth for owner's vessel supplies and services

Inglasco B.V. | Safety on Board and Inglasco International Ltd.

DECades of Expertise in Maritime Safety and Compliance

With a strong legacy in maritime safety, Inglasco B.V. | Safety on Board and Inglasco International Ltd. deliver complete safety solutions that protect your vessels, and their crews worldwide. For decades, shipowners and technical shipmanagers have relied on our expertise, certified equipment, and professional support to maintain the highest standards of safety and regulatory compliance at sea.

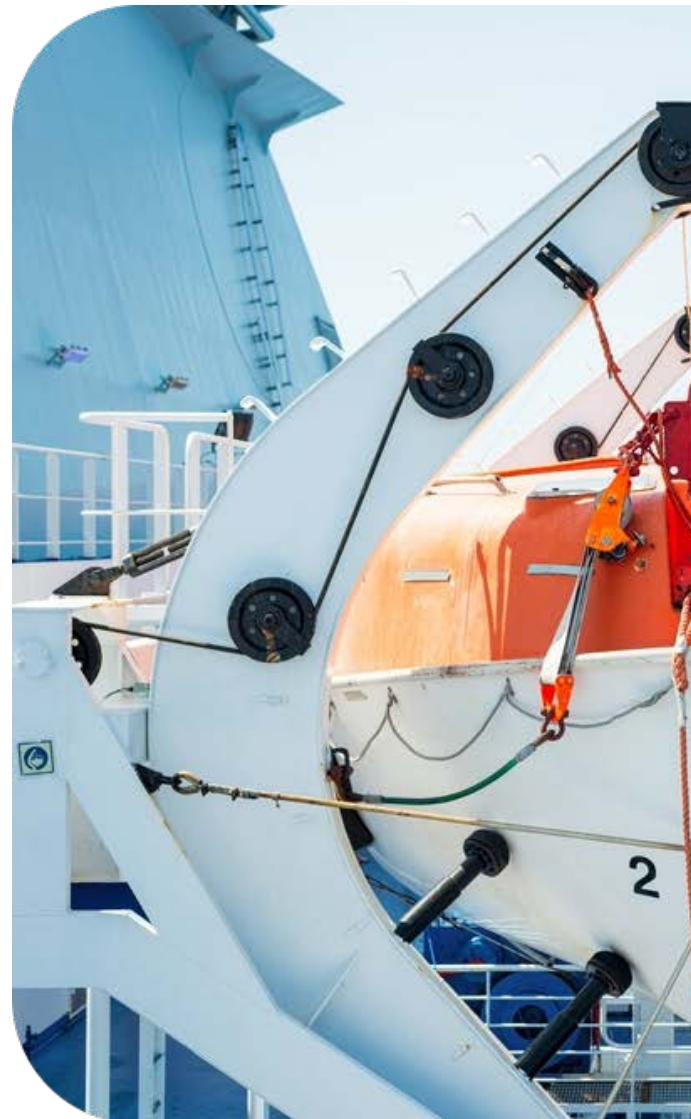

We specialise in servicing, maintaining, supplying and certifying safety systems for a wide range of vessels, from deepsea to coastal vessels to inland barges and river cruise fleets. Whether you need critical safety equipment, inspections, or emergency replacements, Inglasco provides fast, reliable, and class-approved solutions.

We offer full global coverage of inspection and supplies to keep your safety systems operational and compliant, including life saving appliances, fire fighting equipment, gas detection and ullage tank instruments.

- CO₂ installations, including low pressure CO₂ tanks
- FM200 and Novec fire extinguishing systems
- Water-mist fire extinguishing systems
- Foam and dry powder fire extinguishing systems
- Portable and mobile fire extinguishers
- Medical oxygen
- EEBD's, BA-sets, compressed air cylinders
- Immersion suits, life jackets
- Lifeboats, liferafts, rescueboats
- Portable and fixed gas detection systems and equipment
- Analysis and function test of extinguishing foam liquid and powder

Inglasco operates an in-house workshop dedicated to the testing, calibration, and repair of equipment. To ensure uninterrupted operations during servicing, we maintain a vast stock of loan equipment readily available to our clients. Additionally, Inglasco is officially recognized as a class-approved service supplier.

By combining technical know-how with responsive customer service, we help shipowners meet all safety and environmental regulations with confidence. Whether you operate globally or locally, we are your trusted partner in safety, ready to assist wherever and whenever needed.

Vivar Provisions B.V.

REDEFINING VESSEL PROVISIONING IN NORTHWEST EUROPE

Vivar Provisions delivers high-quality food supplies and bonded stores to cargo vessels and offshore units operating in the Netherlands, Belgium, and parts of France. With a strong focus on operational efficiency, product quality, and service reliability, we ensure your crew gets what they need.

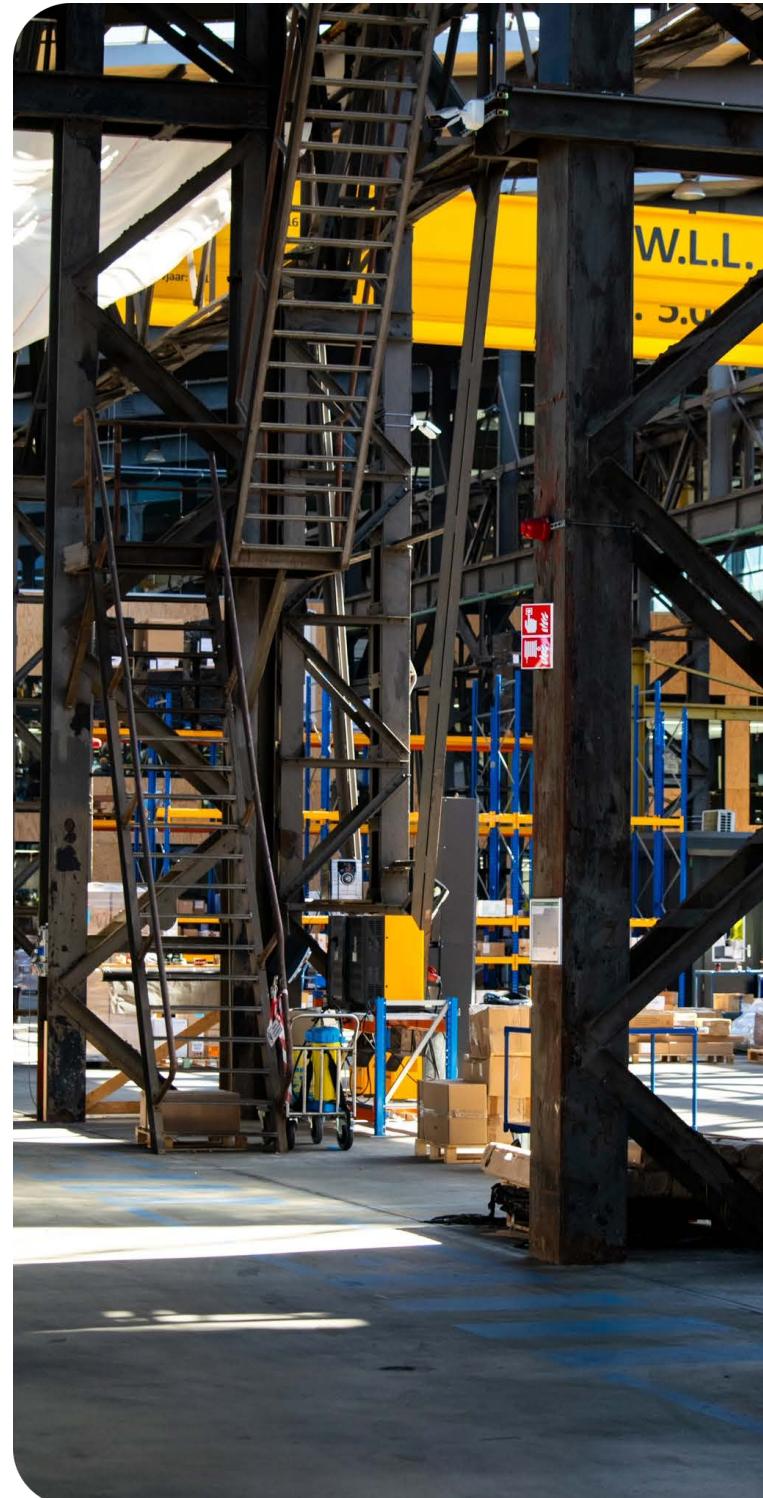

Strategically based in Rotterdam, Europe's busiest port, Vivar Provisions operates from modern warehouses equipped with advanced refrigeration and storage systems. Our logistics network is designed for speed, flexibility, and compliance, making us a trusted partner for vessel provisioning throughout the ARA range and worldwide by making use of our partners network.

What we deliver:

- Fresh and frozen provisions
- A wide range of bonded stores
- Menu planning and catering support tailored to vessel needs
- Access to technical supplies, safety gear, and warehousing via our integrated network

We serve vessels with complete reliability, whether during routine calls or under tight turnaround times. Our team understands the dynamics of port logistics and maritime operations and works around the clock to ensure smooth coordination and delivery.

Our commitment to quality, flexibility, and environmental responsibility ensures we are not just delivering food, we are supporting the well-being and performance of your crew.

YOUR TRUSTED PARTNER IN SHIP-TO-SHIP, PORTABLE PUMPS, MARINE EQUIPMENT AND MARINE SERVICES ACROSS THE GLOBE.

A head office based in Rotterdam, the heart of the marine industry, we have extensive experience in supporting our clients as a flexible marine support service provider.

Mariflex Group is a leading provider of ship-to-ship operations, portable pump services, marine equipment, and marine services, including technical support. For over 30 years, we have built a solid reputation for reliability, flexibility, and fast response, supporting energy majors, traders, shipowners, refineries, terminals, and port authorities across the globe.

WHY MARIFLEX?

- Over 30 years of operational experience
- Round-the-clock global availability
- Highly experienced personnel
- Industry knowledge and compliance
- High levels of certified, high-performance equipment
- End-to-end solutions and marine technical support
- Exemplary safety record
- Strong focus on safety, sustainability, and compliance

We are more than a service provider. We act as an extension of your team, ready to keep your operations running smoothly. With our 24/7 global deployment experience, certified equipment, and skilled team, Mariflex can ensure safe, effective, and compliant solutions no matter the complexity or location.

SHIP-TO-SHIP / SHIP-TO-BARGE TRANSFERS

Mariflex delivers efficient and safe STS and STB operations, even on short notice. Operating in strategic key ports, we specialise in technically challenging and time-sensitive liquid cargo transfers.

KEY STRENGTHS

Rapid response	Dedicated Multi Cat vessel, large equipment stock, and skilled personnel always ready.
Marine technical expertise	We solve problems on-site for all cargo types.
Onboard personnel	Providing real-time coordination, and documentation.
Fully equipped	Hoses, fenders, reducers, all certified, traceable, and instantly deployable.
Certified & approved	ISO-certified and approved by major energy companies.

PUMPING SERVICES

Mariflex offers portable pump systems for reliable liquid cargo transfer, at sea, on board, or at terminals. Our equipment is available for rental or purchase and handles a broad range of cargo types, including crude, chemicals, molasses, edible oils, and viscous liquids. We provide portable pumps and cargo operators to assist with onboard pumping operations.

KEY STRENGTHS

- Rapid global deployment
- Wide range of hydraulically driven portable pumps in stock
- Skilled operators and technical supervision
- Customised setups based on cargo and site conditions
- Real-time operational support and reporting
- From routine transfers to emergency response, we deliver safe, compliant, and efficient pumping solutions.

FILTRATION SERVICES

Mariflex filtration Services specialises in delivering portable filtration units, experienced operators, and expert technical management to support the removal of contaminants from liquid cargoes such as UCO, animal fats, FAME, and more, ensuring product quality is maintained throughout the transfer process.

KEY STRENGTHS

- Stock of candle baskets, and multi-skid filtration systems
- Portable, mobile units deployable across the globe
- Quick setup and easy relocation
- On-site support from experienced operators
- Customised systems based on cargo type and purity requirements

EQUIPMENT RENTAL AND SALES

We supply certified marine equipment for sale and hire, ideal for both planned and urgent needs.

KEY STRENGTHS

- Heavy Mooring Buoys
- Port Security Barriers
- Reducers
- Pneumatic Floating Fenders including Stocked
- Yokohama Floating Fenders
- Marine Hoses. Including Liquid Transfer, composite, and ship-to-ship hoses
- Floating Hoses
- Fixed Fendering solutions
- Cast and Spray Polyurethane Elastomeric Products
- Custom Mooring Solutions
- Wire Rope Slings and Grommets
- Hoses reels & Tri pods
- TDI Heaters (Heat Exchangers)
- Offshore Terminal Equipment (OCIMF Compliant)
- Chafe chains & Support Buoys
- Hose End valve & Camlocks
- Hose end snubbing, lifting, and hang-off chains
- Portable Pumps including booster pumps, submersible pumps, centrifugal pumps, positive displacement pumps.
- Diesel or Electric driven power packs
- Portable Fire Fighting Units and pumpsets

Rely on Mariflex for high-quality, certified equipment tailored to your operational and project requirements.

MARINE SUPPORT SERVICES

Mariflex have a proven track record of successfully completing complex and challenging projects in various regions and conditions. We have established long-term relationships with some of the world's leading energy companies, as well as local authorities and communities.

KEY STRENGTHS

- CALM/SBM Buoy operations, inspection, maintenance, spares parts and refurbishment
- Floating hose inspection, maintenance, spare parts, OCIMF testing and management

INDUSTRIAL & MARITIME CLEANING EXPERTS SINCE 1932

With roots dating back to 1932 and operational hubs in Spijkenisse and Vlissingen, the Netherlands, Vertom Cleaning offers complete industrial and maritime cleaning solutions across the Netherlands and Belgium. We are hands-on professionals, strategic thinkers, and dedicated problem-solvers.

At Vertom Cleaning, service, flexibility, and teamwork are at the heart of everything we do. Our motivated team, advanced equipment, and personal approach ensure we are always ready to provide effective, tailored solutions for even the most complex cleaning challenges.

serve industries including:

- Petrochemical & chemical production
- Food industry & tank storage
- Offshore & onshore installations
- Water treatment facilities
- Maritime transport & ports

INDUSTRIAL CLEANING

We provide comprehensive cleaning services for tanks, silos, machines, installations, pipelines, and more, delivered with state-of-the-art vacuum trucks and high-pressure units (up to 3000 bar, hot and cold). Non-entry cleaning solutions and robotic equipment ensure safety in confined or hazardous spaces.

MARITIME CLEANING

With 24/7 availability and deep experience in maritime operations, we clean all types of seagoing and inland vessels. From ballast and bunker tanks to engine rooms and chemical tanks, we work efficiently and flexibly in dry docks, ports, and onboard.

VACUUM & SEWER CLEANING

Our vacuum trucks (10–35 m³) remove both wet and dry waste. Combined units allow simultaneous sewer jetting and waste collection. Ideal for tank emptying, pit cleaning, pipeline maintenance, and more.

WASTE MANAGEMENT

We handle the complete waste process, from analysis and removal to transport, documentation, and certified disposal.

Our licensed facilities include:

- Liquid-tight storage tanks & containers
- PGS-15-compliant hazardous waste storage
- On-site weighbridge & reporting
- Certified waste collection & transfer center

CLEANING & REPAIR FOR INLAND VESSELS

Vertom Cleaning now provides inland shipping cleaning and light repair services at our new waterfront location in Vlaardingen. With easy vessel access, we serve a wide range of inland ships.

Our services:

- Cargo hold & tank cleaning
- High-pressure & hot spray washing
- Eco-conscious cleaning methods
- Light technical repairs onboard
- Certified waste collection & handling
