SEPARATING THE BEST FROM THE REST!

# Alfa Laval EPC 50 Front Module

The EPC 50 control system for Alfa Laval was newly installed on S and P separators from 1999 until 2010. Since 2023 Alfa Laval stopped the supply of spare parts for EPC 50 control systems.

KET Marine is still able to deliver brand-new and reconditioned spare parts for the EPC 50 control systems.

Repairs are possible for some EPC 50 parts. Our inhouse electronics department is available at any time to assist regarding repair options and remote support.

**KET MARINE**  
SEPARATORS SINCE 1985

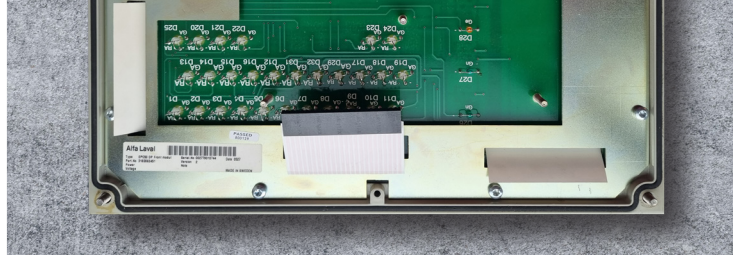

For more information or questions about our Control Unit program please don't hesitate to contact us via [info@ketmarine.nl](mailto:info@ketmarine.nl).

## Reconditioned EPC 50 Front Module

Part number: 31830.6245.1R

On exchange basis

Contains ONLY the steel frame and display

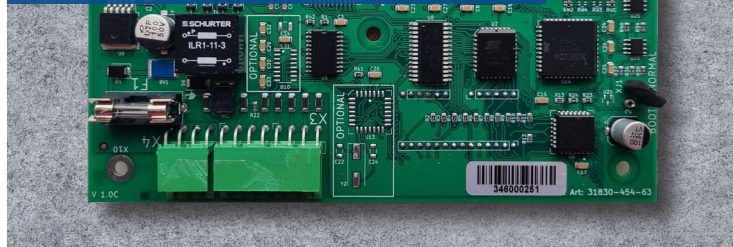

## EPC 50 OP Board

Part number: 31830.4546.3

Brand-new

On exchange basis

Separate supply EPC50 OP Board  
(PCB card only)

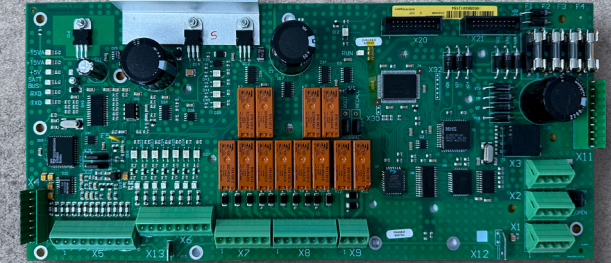

EPC 50 Front module 31830.6245.1 consist out of 2 parts:

- 1) 31830.6245.1R  
Steel frame and plastic buttons.  
According to KET Marine technicians in most cases frame replacement is not required.
- 2) 31830.4546.3
