

High Voltage Marine Equipment

Working with electricity and high-voltage equipment can be dangerous.
Just one slip can result serious injury!
We provide a wide range of insulating equipment to keep yourself safe!

RUBBER INSULATING GLOVES

Insulating gloves are applicable for electrical purposes exclusively as the basic personal protective tool for live working at voltages up to 1000V or as additional protective measure for live working at voltages exceeding 1000V.

Classes:
00 (2,5 kV) / 0 (5 kV) / 1 (10 kV) / 2 (20 kV) / 3 (30 kV)

INSULATED HAND TOOLS

Safety at the workplace with Insulated Tools that provide complete protection upto 1000V AC (1500V DC).
Pliers, screwdrivers, wrenches, knives, etc are essential in all electrical applications.

Tested as per the IEC 60900 standard.
