

We Deliver Value

ABOUT US:

Founded in 2011 in Qingdao, SHIPLUS Marine Service Co., Ltd. is a comprehensive marine technology and shipping service supplier.

After years of unremitting efforts and continuous development, the company has established a service network with Qingdao as BHQs and several entity subsidiaries respectively in the north, central and south of the country as our service fulcrum and ports around China as the service station.

The group has established a systematic operation procedure. Members of group have passed the ISO 9001 QMS certification, ISO 45001 OHS certification and ISO 14001 EMS certification. Meanwhile, the company has also obtained professional qualifications and certificates: A36 and EH36 WPS certificates of LR Class; IWS certificates issued by CCS, DNV, LR, NK, BV, ABS, RINA and KRS.

After years of team construction, the group has a total of 65 staff including project managers, engineers, professional technicians, inspectors and divers. The engineers and technicians have all obtained training certificates from relevant manufacturers, associations or classification societies.

The company has continuously improved its operation system, established a set of practical shipping service management process, which realized quick response, fine management and efficient service.

At present, the company's main business includes: integrated ship engineering and technical services, Underwater engineering, Marine safety service and overseas ship repair.

We adhere to the belief of "safer, more sophisticated and more efficient" and are committed to provide customers with reliable service solutions to provide better and more valuable services for the fleet of customers.
