

# Trust the best-sellers!

---

Discover the products our customers love

Discover our selection of technical parts, designed to guarantee performance and durability aboard your vessels

## Your best-sellers

### Tube copper seamless

Discover our seamless copper tubes, extruded for optimal reliability and corrosion resistance.

### Pipe carbon steel

Carbon steel pipe is a robust and economical choice for transporting high-temperature fluids.

### Pressure gauge glic filled

The pressure gauge glic filled ensures accurate and reliable pressure readings, protecting the internal mechanism from vibrations and shocks.

We offer a comprehensive range of technical supplies, including engine and deck equipment, tools, spare parts, and electrical components, ensuring your vessel operates efficiently and reliably.
