

船用金属窗斗

Marine metal window case

261JC1250-00F

矩形窗斗

Window box for rectangular window

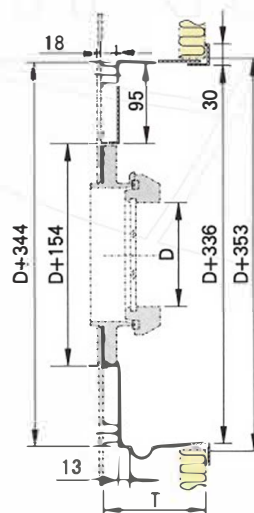

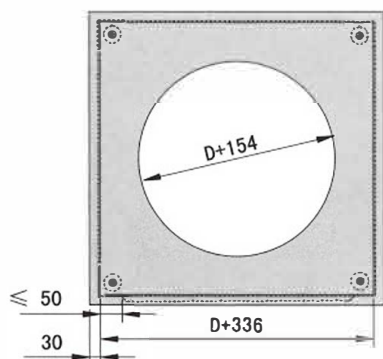

矩形窗斗重量估算: Weight estimation of window box for rectangular window

铝质 For aluminum window $11.2 \times (W1 + H1 + 0.338) \times (T + 0.127) = ? \text{ Kg}$

钢质、不锈钢 For steel, stainless steel window $23.55 \times (W1 + H1 + 0.338) \times (T + 0.127) = ? \text{ Kg}$

舷窗窗斗

Window box for side scuttles

舷窗窗斗重量估算: Weight estimation of window case:

铝质 For aluminum window $11.2 \times (D + 0.722) \times (T + 0.17) = ? \text{ Kg}$

钢质、不锈钢 For steel, stainless steel window $23.55 \times (D + 0.722) \times (T + 0.17) = ? \text{ Kg}$

注意: 计算公式中W1、H1、D皆以 m (米) 为单位

Note: W1, H1 and D in calculating formulas are measured by meter.
