

The Power of PowerServe.

Who We Are

IPS PowerServe provides electrical testing and maintenance services to improve the reliability, safety and efficiency of your facility's equipment. We also offer engineering services, NCCER-accredited training, acceptance testing, surplus power distribution equipment, and more.

Our Experience

We have over 30 years of experience serving the power distribution needs of customers in a variety of industries, from power generation to property management. Our team includes both NETA certified technicians and professional engineers.

We Come to You

IPS PowerServe has coast-to-coast locations to serve and mobilize to anywhere in North America.

WHAT WE CAN DO FOR YOU:

- ✓ Engineering Services
- ✓ Maintenance Services
- ✓ Power Quality Services
- ✓ Disaster Recovery
- ✓ Upgrades and Modifications
- ✓ Commissioning and Start-up Services
- ✓ Transformer Services
- ✓ Battery and UPS Systems
- ✓ On-Site Testing, Maintenance, and Inspection
- ✓ Substation Maintenance Contracts
- ✓ Rotating Equipment
- ✓ Certified Training
- ✓ Infrared Surveys
- ✓ Preventive Maintenance
- ✓ Emergency Restoration Services
- ✓ NETA Accredited Testing
- ✓ Third-Party Testing

Engineering Services

- Arc Flash Hazard Analysis
- Short Circuit and Coordination Studies
- One-line Diagram Development
- System Failure Analysis
- Load Flow Analysis
- NERC Compliance
- Motor and Generator Testing

Maintenance Services

- Substation Testing
- LV Breaker Test, Rebuild, and Retrofitting
- MV Breaker Test and Rebuild
- OCB, Vacuum, and SF6 Breaker Test and Rebuild
- NFPA 70B Planning and Compliance

Power Quality Services

- Power Quality Analysis
- Power System Monitoring
- Energy Audits

Disaster Recovery

- Standby Generation
- On-Site Substation Rebuilding
- Bus Fabrication
- Substation Relocation

Upgrades and Modifications

- LV Breaker Retrofitting
- Switchgear Field Additions
- Rental and Exchange Breakers
- Relay Upgrades

Commissioning and Start-Up Services

- Acceptance Testing (Commercial, Industrial, Utility, and Co-Generation Plants)
- Functional Testing
- Grounding Systems
- Cable and Relay Testing

Transformer Services

- Oil Degassing, Vacuum Fill, and Storage Capabilities
- On-Site Repair and Testing
- Load Tap Changer Repair
- Oil Testing and Filtering
- Sample Port Extension

Battery and UPS Systems

- Automatic Transfer Switch Maintenance
- Cell Maintenance
- Load Testing
- Charger Inspection and Testing

On-Site Testing, Maintenance, and Inspection

- LV, MV, HV Circuit Breaker Test, Troubleshooting, and Repair
- Protective Relay Testing
- OCB and SF6 Test and Repair
- OEM Level Support on all Equipment

Substation Maintenance Contracts

- Review and Evaluation Programs
- Monthly Inspections
- Quarterly and Annual Scheduled Preventive Maintenance Programs
- Battery Systems Testing, Repairs, and Maintenance

Rotating Equipment

- Motor Starters
- Motor Control Buckets
- Power Factor Testing
- Insulation Testing

Certified Training

- CEU and CTD Credits
- Safety Training - NFPA 70E, Lockout/Tagout (LOTO)
- Transformer Training - Theory, Operation, Maintenance, and Testing
- Protective Relay Systems - Ground Fault Protection, Motor Theory, and Operation

Infrared Surveys

- Certified Thermographers
- Electrical and Mechanical

Preventive Maintenance

- Infrared Surveys
- Transformer Oil Testing
- Equipment Inspections
- Partial Discharge/Ultrasonic Testing

Emergency Restoration Services

- 24 Hour On-Call Response
- Emergency Field Repairs
- Spare Equipment Inventory
- Sheet Metal and Bus Fabrication Services
