About RBC Group

RBC has been the ultimate specialist in safety and security in the industrial and maritime sectors since 1994. We offer a complete range of safety equipment, skilled safety and security personnel, camera surveillance, access control, business certifications, safety training and (ad hoc) solutions, allowing us to provide you with all your safety needs from a single point of contact. We also offer a total service and maintenance package for your equipment, both in our service centre and on site. **Our goal is to fully unburden you.**
