

Global Hydraulic Solutions: Sinu Marine Hydraulic Equipment Tech Ltd.

Subject: China hydraulic repair service for ship owner, china spare parts supplier.

With decades of leadership as a supplier in ship hydraulic repair technology, we've built expertise in turning operational challenges into reliable solutions. Now, we are excited to offer consulting services specializing in deck machinery repair optimization and global hydraulic spare parts supply – helping clients minimize downtime and maximize fleet performance.

What We Deliver:

- ✓ End-to-End Deck Machinery Solutions: From troubleshooting crane/hydraulic system failures to predictive maintenance planning, we design repair strategies aligned with OEM standards and cost-efficiency.
- ✓ Global Hydraulic Parts Network: Access to 5000+ certified marine hydraulic components (pumps, valves, cylinders) with streamlined logistics across 15+ key shipping hubs.
- ✓ Emergency Response Framework: 72-hour critical parts delivery protocol for urgent repair scenarios.

Why work with us?

- ◆ 20 years of technological development: Hands-on experience in more than 200 repair projects covering bulk carriers, container ships, offshore vessels and LNG carriers.
- ◆ Agile Collaboration: Flexible engagement models - project-based diagnostics, remote technical consulting or on-site team training.

Market-driven mindset: Our background in scaling businesses (30% year-on-year growth through strategic marketing) ensures that solutions are aligned with your business objectives.

Whether you're a shipowner needing to source parts quickly, a drydock facility looking to optimize repair processes, or a supplier expanding your service offerings, let's discuss how to turn hydraulic challenges into competitive advantages.
